10	Securitized Debt																								
12	Short term deposit issued by scheduled commercial bank																								
<b>Investment Strategy</b>	<p>This scheme is designed for investors who want to invest their money for a very short time. To achieve this, the scheme will mainly invest in low risk and highly liquid options such as Tri-party REPOs, debt instruments, money market securities, and cash equivalents that mature overnight. In case of securities with put and call options (daily or otherwise) the residual maturity (deemed or actual) shall be on or before the next Business Day. Investments under the Scheme would be made predominantly in Tri Party Repos, overnight reverse repos and fixed income securities/instruments with a residual maturity of 1 business day.</p> <p>Please refer SID for detailed investment strategy.</p>																								
<b>Risk Profile of the Scheme</b>	<p>Mutual Fund units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme specific risk factors are summarized below:</p> <p><b>Scheme Specific Risk Factors:</b> Investments in money market instruments would involve a moderate credit risk i.e. risk of an issuer's liability to meet the principal payments. Additionally, money market securities, while fairly liquid, lack a well-developed secondary market, which may restrict the selling ability of the scheme and may lead to the Scheme incurring losses till the security is finally sold.</p>																								

Money market instruments are also subject to price volatility due to factors such as changes in interest rates (when interest rates in the market rise, the value of a portfolio of money market instruments can be expected to decline), general levels of market liquidity, market perception of credit worthiness of the issuer of such instruments and risks associated with settlement of transactions and re-investment of intermediate cash flows. The NAV of the Scheme's Units, to the extent that the Scheme is invested in money market instruments, will consequently be affected by the aforesaid factors. The AMC endeavours to manage such risk by the use of in house credit analysis

**Interest Rate/Price risk:** This risk is associated with movements in interest rate, which depend on various factors such as government borrowing, inflation, economic performance etc. The values of investments will appreciate/depreciate if the interest rates fall/rise. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices generally increase. The extent of fall or rise in the prices depends upon factors such as coupon, residual maturity of the security, micro and macroeconomic scenario as well as the yield level at which the security is being traded.

Government securities do carry price risk depending upon the general level of interest rates prevailing from time to time. The extent of fall or rise in the prices is a function of the coupon rate, days to maturity and the increase or decrease in the level of interest rates. The price of the Government securities (existing and new) is influenced only by movements in interest rates in financial systems.

Floating rate securities issued have the lower sensitivity to interest rate movements compared to other securities. These securities can play an important role in minimising interest rate risk in a portfolio.

**Spread risk:** Though the sovereign yield curve might remain constant, investments in corporate bonds are exposed to the risk of spread widening between corporate bonds and gilts. Typically, if this spread widens, the prices of the corporate bonds tend to fall and so could the NAV of the Scheme. Similar risk prevails for the investments in the floating rate bonds, where the benchmark might remain unchanged, but the spread over the benchmark might vary. In such an event, if the spread widens, the price and the NAV of a Scheme could fall.

**Credit Risk/Default risk:** Credit risk is the risk that the issuer of a debenture/ bond or a money market instrument may default on interest &/or principal payment obligations. This risk arises due to any uncertainty in counterparty's ability or willingness to meet its contractual obligations. Even when there is no default, the price of a security may change with expected changes in the credit rating of the issuer. Corporate bonds carry a higher credit risk than Government Securities. Within corporate bonds as well, there are different levels of safety. Credit risks of most issuers of debt securities are rated by independent and professionally run rating agencies. Ratings of Credit issued by these agencies typically range from "AAA" (read as "Triple A" denoting "Highest Safety") to "D" (denoting "Default"), with about 6 distinct ratings between the two extremes. A bond rated higher by a particular rating agency is safer than a bond rated lower by the same rating agency. The highest credit rating (i.e. lowest credit risk) commands a lower yield for the borrower. Conversely, a lower rated credit borrower would raise funds at a relatively higher cost. On account of a higher credit risk for lower rated borrowers, lenders prefer higher rated instruments further justifying the lower yields.

**Re-investment Risk:** Investments in fixed income securities may carry re-investment risk as interest rates prevailing on the interest or maturity due dates may differ from the original coupon of the bond. Consequently, the proceeds may get invested at a lower rate.

**Spread Risk:** In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. In the life of the security this spread may move adversely leading to loss in value of the portfolio. The yield of the underlying benchmark might not change, but the spread of the security over the underlying benchmark might increase leading to loss in value of the security.

**Counterparty Risk:** This is the risk of failure of counterparty to the transaction to deliver securities against consideration received or to pay consideration against securities delivered, in full or in part or as per the agreed specification. There could be losses to the scheme in case of counterparty default.

**Inflation risk:** Inflation, in most basic terms, erodes the purchasing power of money and also withers the value of existing investments; in other words, it reduces the purchasing power of a bond investor's future interest payments and principal, collectively known as "cash flows." Inflation also leads to higher interest rates, which in turn leads to lower bond prices.

**Liquidity risk:** The liquidity of a bond may change depending on market conditions leading to changes in the liquidity premium linked to the price of the bond. At the time of selling the security, the security can become illiquid leading to loss in the value of the portfolio. There could therefore be difficulties in exiting from corporate bonds in times of uncertainties. Liquidity in a scheme therefore may suffer.

**Settlement risk:** Different segments of Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances. Delays or other problems in settlement of transactions could result in temporary periods when the assets of the Scheme are not invested and no return is earned thereon. The inability of the Scheme to make intended securities purchases, due to settlement problems, could cause the Scheme, to miss certain investment opportunities. Similarly, the inability to sell securities held in the Scheme's portfolio, due to the absence of a well-developed and liquid secondary market for debt securities, may result at times in potential losses to such Scheme in the event of a subsequent decline in the value of securities held in the portfolio of the Scheme.

**Market risk:** Lower rated or unrated securities are more likely to react to developments affecting the market and the credit risk than the highly rated securities which react primarily to movements in the general level of interest rates. Lower rated or unrated securities also tend to be more sensitive to economic conditions than higher rated securities.

In addition to the factors that affect the values of securities, the NAV of Units of the Scheme will fluctuate with the movement in the broader fixed income market, money market may be influenced by factors influencing such markets in general including but not limited to economic conditions, changes in interest rates, price and volume volatility in the bond and stock markets, changes in taxation, currency exchange rates, foreign investments, political, economic or other developments and closure of the stock exchanges.

	<ul style="list-style-type: none"> <li>Investments in different types of securities are subject to different levels and kinds of risk. Accordingly, the Scheme's risk may increase or decrease depending upon its investment pattern. E.g. investments in corporate bonds carry a higher level of risk than investments in Government securities. Further, even among corporate bonds, bonds which have a higher rating are comparatively less risky than bonds which have a lower rating.</li> </ul> <p>For details on risk factors and risk mitigation measures, please refer SID.</p>
<b>Plans/Options</b>	<p><u>Plans:</u></p> <ul style="list-style-type: none"> <li>Regular Plan</li> <li>Direct Plan</li> </ul> <p><u>Options under each plan(s):</u></p> <ul style="list-style-type: none"> <li>Income Distribution cum Capital Withdrawal (IDCW) Option</li> <li>Growth Option</li> </ul> <p>The IDCW will be declared subject to availability and adequacy of distributable surplus. The IDCW can be distributed out of investors capital (equalization reserve), which is part of sale price that represents realized gains.</p> <p>Sub-options under IDCW</p> <p>(i) IDCW Payout</p> <p>(ii) IDCW re-investment.</p> <p>Default Option: If the applicant does not indicate the choice of Option in the Application form, the fund accepts the application as being for the Growth Option and Reinvestment of IDCW is the default sub-options of IDCW.</p>
<b>Applicable NAV (after the scheme opens for subscriptions and redemptions )</b>	<p>The AMC will calculate and disclose the NAV of the Scheme on all business days. Further 360 ONE AMC will extend facility of sending latest available NAVs of the Scheme to the Unit holders through SMS upon receiving a specific request in this regard. The AMC will update the NAVs on AMFI website <a href="http://www.amfiindia.com">www.amfiindia.com</a> before 11.00 p.m. on every business day. If the NAV is not uploaded by 11.00 p.m. on AMFI website on same business day the reason for the such delay will be intimated to AMFI in writing. If the NAV is not available before the commencement of Business Hours on the following day due to any reason, the Mutual Fund shall issue a press release giving reasons and explaining when the Mutual Fund would be able to publish the NAV.</p> <p>The Cut-off time for the Scheme is 1:30 pm and the Applicable NAV will be as under:</p> <p>For Purchase / Switch-in:</p> <ul style="list-style-type: none"> <li>In respect of valid application received up to 1.30 p.m. on a day at the official point(s) of acceptance and funds for the entire amount of subscription/purchase as per the application are credited to the bank account of the Schemes before the cut-off time i.e. available for utilization before the cut-off time - the closing NAV of the day immediately preceding the day of receipt of application shall be applicable;</li> <li>In respect of valid application received after 1.30 p.m. on a day at the official point(s) of acceptance and funds for the entire amount of subscription/purchase as per the application are credited to the bank account of the Schemes on the same day i.e. available for utilization on the same day - the closing NAV of the day immediately preceding the next Business Day shall be applicable; and</li> </ul>

	<ul style="list-style-type: none"><li>• Irrespective of the time of receipt of application at the official point(s) of acceptance, where the funds for the entire amount of subscription/purchase as per the application are not credited to the bank account of the Schemes before the cut-off time i.e. not available for utilization before the cut-off time - the closing NAV of the day immediately preceding the day on which the funds are available for utilization shall be applicable.</li></ul> <p>For Redemption/ Switch out:</p> <ul style="list-style-type: none"><li>• In respect of valid applications received in physical mode upto 3.00 p.m. and online mode upto 7.00 p.m.– the closing NAV of the day immediately preceding the next Business Day ; and</li><li>• In respect of valid applications received after the above mentioned cut-off time, the closing NAV of the next Business Day shall be applicable.</li></ul>		
Minimum Application Amount/ Number of Units	Purchase	Additional Purchase	Redemption
	INR 5000/- and in multiples of INR 1/- thereafter	INR 1000/- and in multiples of INR 1/- thereafter	There will be no minimum redemption amount.
Despatch of Redemption Request	The redemption or repurchase proceeds shall be transferred to the unitholders within 3 working days from the date of redemption or repurchase request.		
Benchmark Index	NIFTY 1D Rate Index The Scheme intends to invest in a portfolio of instruments which is best captured by NIFTY 1D Rate Index. NIFTY 1D Rate Index is a realistic estimate to track the returns of an Overnight Fund at a particular return and risk level and hence is used as a benchmark by most market participants.		
IDCW Policy	Under the Income Distribution cum Capital Withdrawal (IDCW), the Trustees may declare IDCW subject to the availability of distributable surplus calculated in accordance with SEBI (MF) Regulations. The actual declaration of IDCW and the frequency of distribution will be entirely at the discretion of the Trustees. The IDCW would be paid to the Unitholders whose names appear in the Register of Unitholders as on the record date. There is no assurance or guarantee to the Unitholders as to the rate of IDCW nor that the IDCW would be paid regularly. If the Fund declares IDCW, the NAV will stand reduced by the amount of IDCW and IDCW distribution tax (if applicable) paid. All the IDCW payments shall be in accordance and compliance with SEBI Regulations, as applicable from time to time.		
Name of the Fund Manager	Mr. Milan Mody Mr. Mody is also managing 360 ONE Liquid Fund, 360 ONE Dynamic Bond Fund and 360 ONE Balanced Hybrid Fund (debt portion) and 360 ONE Multi Asset Allocation Fund (debt portion).  Co – Fund Manager: Mr. Viral Mehta Co Fund Manager of 360 ONE Dynamic Bond Fund, 360 ONE Liquid Fund and 360 ONE Balanced Hybrid Fund (debt portion) and 360 ONE Multi Asset Allocation Fund(debt portion)		
Name of the Trustee Company	360 ONE Asset Trustee Limited		
Performance of the scheme:	This is new scheme under 360 ONE Mutual Fund.		

Additional Scheme Related Disclosures	Scheme's portfolio holdings (top 10 holdings by issuer) as on October 31, 2025							
	Name of the issuer				% of Scheme			
	TREPS				99.98			
	The complete portfolio of the scheme on monthly basis is updated at <a href="https://www.360.one/asset-management/mutualfund/downloads/disclosures/">https://www.360.one/asset-management/mutualfund/downloads/disclosures/</a>							
	Allocation of the scheme towards its various Sectors:							
	Sector				% of Holding			
	Sovereign				100			
Expenses of the Scheme	New Fund offer expenses: All initial issue expense shall be borne by AMC.							
Load Structure	• Exit Load: Nil							
	Pursuant to clause 10.6 of SEBI Master Circular dated June 27, 2024, no entry load or exit load shall be charged in respect of units allotted on reinvestment of dividend.							
	These are the fees and expenses for operating the Scheme. These expenses include Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' fee, marketing and selling costs etc. as given in the table below.							
	Further, as per clause 10.1.12 of SEBI Master Circular dated June 27, 2024, all scheme related expenses including commission paid to distributors, by whatever name it may be called and in whatever manner it may be paid, shall necessarily be paid from the scheme only within the regulatory limits.							
Recurring Expenses	As per Regulation 52 (6) (c) of SEBI Regulations, the maximum annual scheme recurring expenses including the investment management fees that can be charged to the Scheme is as follows:							
	Daily Net Assets(R s.)	on the first Rs.500 crores	on the next Rs. 250 crores of the daily net assets	on the next Rs. 1,250 crores of the daily net assets	on the next Rs. 3,000 crores of the daily net assets	on the next Rs. 5,000 crores of the daily net assets	on the next Rs. 40,000 crores of the daily net assets	on balance of the assets
	% per annum	2.00 %	1.75 %	1.50 %	1.35 %	1.25 %	Total expense ratio reduction of 0.05% for every increase of Rs. 5,000 crores of daily net assets or part thereof	0.80%

	<p>a. Brokerage and transaction cost incurred for the purpose of execution of trade shall be charged to the schemes as provided under Regulation 52 (6A) (a) upto 12 bps and 5 bps for cash market transactions and derivatives transactions (if permitted under the scheme) respectively. Any payment towards brokerage and transaction costs, over and above the said 12 bps and 5 bps may be charged to the scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under Regulation 52.</p> <p>b. Expenses not exceeding 0.05% p.a. of daily net assets towards Investment Management and Advisory Fees and the various sub-heads of recurring expenses mentioned under Regulation 52 (2) and (4) respectively of SEBI (MF) Regulations. Provided that such additional expenses shall not be charged to the schemes where the exit load is not levied or applicable.</p> <p>The total expenses charged to the Scheme shall not exceed the limits stated in Regulation 52 of the SEBI (MF) Regulations and as permitted under SEBI Circulars issued from time to time. Any expenditure in excess of the SEBI regulatory limits shall be borne by the AMC or by the Trustee or the Sponsor.</p> <p>Any change in the expense ratio will be updated on our website and the same will be communicated to investor via SMS / e-mail 3 working days prior to the effective date of change. For the actual current expenses being charged, the investor should refer to the website: <a href="https://www.360.one/asset-management/mutualfund/">https://www.360.one/asset-management/mutualfund/</a>.</p> <p>The maximum limit of recurring expenses that can be charged to the Scheme would be as per Regulation 52 of the SEBI (MF) Regulation, 1996. Investors are requested to read “Section- Annual Scheme Recurring Expenses” in the SID.</p>				
<b>Tax treatment for the Investors (Unitholders)</b>	Investor are advised to refer to the details in the Statement of Additional Information and also independently refer to his/her tax advisor.				
<b>Daily Net Asset Value (NAV) Publication</b>	The AMC will update the NAVs on AMFI website ( <a href="http://www.amfiindia.com">www.amfiindia.com</a> ) before 11.00 p.m. on every business day and also on its website ( <a href="https://www.360.one/asset-management/mutualfund/">https://www.360.one/asset-management/mutualfund/</a> ).
