Part II. INFORMATION ABOUT THE SCHEME

A. HOW WILL THE SCHEME ALLOCATE ITS ASSETS?

The investment policies of the Scheme shall be as per SEBI (Mutual Funds) Regulations, 1996, and within the following guidelines. Under normal market circumstances, the investment range would be as follows:

Instruments	Indicative Allocations (% of total assets)	
	Minimum	Maximum
Debt Market instruments*	0%	100%
Money Market instruments	0%	100%
Units issued by REITs & InvITs	0%	10%

*Investments in securitized debt including Pass Through Certificates (PTCs) not to exceed 25% of the net assets of the Scheme as at the time of purchase. Investment in debt derivatives shall be up to 50% of the net assets of the Scheme.

In accordance with clause 12.24 of SEBI Master Circular dated June 27, 2024 the cumulative gross exposure through equity, debt, derivative positions (including commodity and fixed income derivatives), repo transactions and credit default swaps in corporate debt securities, Real Estate Investment Trusts (REITs), Infrastructure Investment Trusts (InvITs), other permitted securities/assets and such other securities/assets as may be permitted by the Board from time to time should not exceed 100% of the net assets of the scheme.

Indicative table of percentage of investment in various securities:

Sl. no	Type of Instrument	% of exposure	Circular references
1.	Securitized Debt including Pass through Certificates (PTC)	Shall not exceed 25% of the net assets	-
2.	Debt Derivatives	Upto 50% of the net assets of the Scheme	- Clause 12.25 of Master Circular dated June 27, 2024
3.	Security Lending	20% of the net assets subject to 5% cap per single counter party	Clause 12.11 of SEBI Master Circular dated June 27, 2024 and framework for short selling and borrowing and lending of securities notified by SEBI.
4.	Units of Corporate Debt Market Development Fund (CDMDF)*	25bps of its AUM	Regulation 43A of SEBI (Mutual Funds) Regulations, 1996 read with Chapter 16A of SEBI Master circular

			dated June 27, 2024
5.	The total exposure of the Scheme in a particular sector, based on AMFI classification (excluding investments in Bank CDs, TREPs, Government Securities, Treasury Bills, short term deposits of scheduled commercial banks and AAA rated securities issued by Public Financial Institutions and Public Sector Banks)	Shall not exceed 20% of the net assets	Clause 12.9 of SEBI Master Circular dated June 27, 2024
6.	Investments in AA or higher rated securities of Housing Finance Companies (HFC's) registered with National Housing Bank (NHB)	Additional exposure to financial services sector (over and above the existing 20% limit) not exceeding 10% of the net assets of the scheme ensuring total investment in HFC's shall not exceed 20% of the net assets	Clause 12.9 of SEBI Master Circular dated June 27, 2024
7.	Investments in securitized debt instruments based on retail housing loan portfolio and/or affordable housing loan portfolio.	An additional exposure of 5% of the net assets	Clause 12.9 of SEBI Master Circular dated June 27, 2024

* Incremental contribution to CDMDf shall be made every six months within 10 working days from the end of half year starting from December 2023 to ensure 25 bps of scheme AUM is invested in units of CDMDf. However, if AUM decreases there shall be no return or redemption from CDMDf. Contribution made to CDMDf, including the appreciations on the same, if any, shall be locked-in till winding up of the CDMDf.

However, in case of winding up of contributing Scheme, inter-scheme transfers within the same Mutual Fund or across Mutual Funds may be undertaken.

Further, investments in CDMDf units shall not be considered as violation while considering maturity restriction as applicable for various purposes (including applicable Investment limits) and the calculations of Potential Risk Class (PRC) Matrix, Risk-o-meter, Stress testing and Duration for various purposes shall be done after excluding investments in units of CDMDf.

The Scheme retains the flexibility to invest across all classes of debt and money market instruments with no cap or floor on maturity, duration or instrument type concentrations. The Fund will dynamically manage the portfolio maturity profile based on the current market condition. Since the intention of fund is to dynamically manage the asset allocation the percentage of allocation would change depending on view of interest rate, level of corporate spread, overall market view and availability of different asset at different point of time. The Fund shall not take any leveraged position.

The Scheme will not invest in below securities/instruments:

S.No.	Securities/Instruments
1	Foreign securities
2	Repo transactions of Corporate Debt Securities

The Fund shall not take any leveraged position.

Pending deployment of the funds as per the investment objective of the Scheme, the funds of the Scheme may be parked in short term deposits of the scheduled commercial banks, subject to the guidelines and limits specified by SEBI from time to time. Subject to limits prescribed by SEBI, the maturity profile of the Scheme can undergo a change in case the market conditions warrant and at the discretion of the fund manager. The investments in short term deposits of scheduled commercial bank for pending deployment of funds of a scheme shall be excluded while calculating sector exposure.

Change in Asset Allocation

The Scheme may review the above pattern of investments/ asset allocation based on views on interest rates and asset liability management needs. However, at all times the portfolio will adhere to the overall investment objectives of the Scheme. Subject to the Regulations, the asset allocation pattern indicated above may change from time to time, keeping in view market conditions, market opportunities, applicable regulations, legislative amendments and political and economic factors. It must be clearly understood that the percentages stated above are only indicative and not absolute. These proportions can vary substantially depending upon the perception of the fund manager; the intention being at all times to seek to protect the interests of the Unit holders. Such changes in the investment pattern will be for short term and for defensive considerations only. In case of deviation, the portfolio would be rebalanced within 1 month from the date of deviation. In case the same is not aligned to the above asset allocation pattern within 1 month, justification shall be provided to the Investment Committee and reasons for the same shall be recorded in writing. The Investment committee shall then decide on the course of action.

Rebalancing due to Short Term Defensive Consideration:

Due to market conditions, the AMC may invest beyond the range set out in the asset allocation. Such deviations shall normally be for a short term and defensive considerations as per clause 1.14.1.2 (b) of SEBI Master Circular dated June 27, 2024, and the fund manager will rebalance the portfolio within 30 calendar days from the date of deviation.

Rebalancing due to Passive Breaches:

Further, as per clause 2.9 of SEBI Master Circular dated June 27, 2024, as may be amended from time to time, in the event of deviation from mandated asset allocation due to passive breaches (occurrence of instances not arising out of omission and commission of the AMC), the fund manager shall rebalance the portfolio of the Scheme within 30 Business Days. In case the portfolio of the Scheme is not rebalanced within the period of 30 Business Days, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee of the AMC. The Investment Committee, if it so desires, can extend the timeline for rebalancing up

to sixty (60) Business Days from the date of completion of mandated rebalancing period. Further, in case the portfolio is not rebalanced within the aforementioned mandated plus extended timelines the AMC shall comply with the prescribed restrictions, the reporting and disclosure requirements as specified in clause 2.9 of SEBI Master Circular dated June 27, 2024.

B. WHERE WILL THE SCHEME INVEST?

The scheme shall invest in below instruments:

- a. Certificate of Deposit
- b. Commercial Paper;
- c. Repo of Government Securities;
- d. Treasury Bill (T-Bill);
- e. Tri-party repo (TREPS);
- f. Securities created and issued by the Central and State Governments;
- g. Non-convertible debentures and bonds;
- h. Floating rate debt instruments;
- i. Pass through Certificate (PTC)
- j. Securitized Debt
- k. Short Term Deposits
- l. Corporate Debt Market Development Fund (CDMDF)

For details, please refer Section II.

C. WHAT ARE THE INVESTMENT STRATEGIES?

The investment objective of the scheme is to generate income and long term gains by investing in a range of debt and money market instruments of various maturities. The scheme will seek to flexibly manage its investment across the maturity spectrum with a view to optimize the risk return proposition for the investors.

The scheme will design portfolio which will dynamically track interest rate movements in the short term by reducing duration in a rising rate environment while increasing duration in a falling interest rate environment.

In order to maximize returns the fund managers may look at curve spread both on gilt as well as the corporate bond markets to gain maximum value out of any security(s).

The Scheme has the discretion to take aggressive interest rate / duration risk calls, which could mean investing the entire net assets in long dated Government securities and debt instruments (carrying relatively higher interest rate risk), or on defensive considerations, entirely in money market instruments. Accordingly, the interest rate risk of the Scheme may change substantially depending upon the Fund's call. The Scheme does not propose to underwrite issuances of securities of other

issuers. The Scheme would invest in debt securities of companies based on various criteria like sound professional management, Sound track record, industry scenario, growth prospects, liquidity of the securities, etc. The Scheme will emphasize on well-managed, good quality companies with above average growth prospects whose securities can be purchased at a good yield and whose debt securities are rated above the Investment grade by a recognised authority like The Credit Rating and Information Services of India Limited (CRISIL), ICRA Limited, Credit Analysis and Research Limited (CARE) etc. Investment in unrated debt and money market instruments, other than government securities, treasury bills, derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc. by the scheme shall be subject to the following:

- a. Investments should only be made in such instruments, including bills rediscounting, usance bills, etc., that are generally not rated and for which separate investment norms or limits are not provided in SEBI (Mutual Fund) Regulations, 1996 and various circulars issued thereunder.
- b. Exposure of the scheme in such instruments, shall not exceed 5% of the net assets of the scheme.
- c. All such investments shall be made with the prior approval of the Board of AMC and the Board of Trustees.

All investments made by the Scheme will be made in accordance with SEBI (Mutual Fund) Regulations, 1996, as amended from time to time. The AMC will follow a structured investment process in order to identify the best securities for investment and has developed an internal research framework for consistently examining all securities. The aim of the Investment Manager will be to achieve optimal returns with high credit quality portfolio. The actual percentage of investment in various fixed income securities will be decided after considering the prevailing market conditions, the macroeconomic environment (including interest rates and inflation), the performance of the corporate sector and general liquidity and other considerations in the economy and market.

The Scheme may invest in derivatives for the purposes of hedging and portfolio balancing, i.e. taking interest rate calls or as may be permitted under the Regulations from time to time. The AMC retains the right to enter into such derivative transactions as may be permitted by the applicable regulations from time to time.

The credit quality of the portfolio will be maintained and monitored using in-house research capabilities as well as inputs from external sources such as independent credit rating agencies. The investment team will primarily use a bottom up approach to assess the quality of the security/instrument (including the financial health of the issuer) as well as the liquidity of the security.

Investment /Credit evaluation

Fund Manager shall take a view on the broad direction of the market including interest rate outlook. While monitoring credit quality of the portfolio, the investment team shall evaluate each credit before inclusion into the Scheme portfolio. Following factors are considered while evaluating investment and credit of debt and other instruments.

- o Liquidity of instrument
- o Credit rating of instrument
- o Credit spread
- o Issuer of instruments and sectors it belongs to
- o Credit Quality as determined by analyzing its financial statements
- o Aggregate Exposure to the issuer

o Exposure of other Funds

Fixed Income Derivatives

The Scheme may invest in various derivatives instruments including interest rate swaps and forward contracts which are available for investment in Indian Markets from time to time and which are permissible under the Regulations from time to time. Investment in such instruments will be made in accordance with the investment objective and the strategy of the Scheme. The investments shall also be subject to the internal limits as may be laid down from time to time and such limits and restrictions as may be prescribed by the Regulations or any other regulatory body.

For detailed derivatives strategies, please refer to SAI.

Interest Rate Swaps

Interest Rate Swaps is an agreement between two parties (counterparties) to exchange payments at specified dates on the basis of a specific amount with reference to a specified reference rate. Swap Agreements provide for period payment dates for both parties where payments are netted and only the net amount is paid to the counterparty entitled to receive the net payment. Consequently, the Scheme's current obligations (or rights) under a swap agreement will generally be equal only to the net amount to be paid or received under the agreement, based on the relative values of the possession held by each counterparty.

Example of Swap Transaction:

Assume that the Scheme has a Rs. 50 crore floating rate investment linked to MIBOR (Mumbai Inter Bank Offered Rate). Thus, the Scheme has a potential interest rate risk and stands to incur a loss if the interest rate moves down. To hedge this interest rate risk, the Scheme can enter into a 6 month MIBOR swap on July 1, 2014 for 6 months that is upto January 1, 2015. Through this swap, the Scheme will receive affixed determined rate (assume 8%) and pays the 'benchmark rate' (MIBOR), which is fixed by an intermediary who runs a book and matches deals between various counterparties, such intermediary could be the NSE or the Reuters. This swap would effectively lock in the interest rate of 8% for the next 6 months, eliminating the daily interest rate risk.

On January 1, 2015 the Scheme is entitled to receive interest on Rs. 50 crore at 8% for 180 days i.e., Rs. 2 crores (this amount is known at the time the swap is concluded) and will pay the compounded benchmark rate. The counterparty is entitled to receive the daily compounded call rate for 180 days and pay 8% fixed rate. On January 1, 2015, if the total interest on the daily overnight compounded benchmark rate is higher than Rs. 2 crore, the Scheme will pay the difference to the counterparty. If the daily compounded benchmark rate is lower, then the counterparty will pay the Scheme the difference. Effectively, the Scheme earns interest at the rate of 8% p.a. for 6 months without lending money for 6 months fixed, whilst the counterparty pays interest @ 8% p.a. for 6 months on Rs. 50 crores without borrowing for 6 months fixed.

Forward Rate Agreement

Forward rate agreement is a transaction in which the counterparties agree to pay or receive the difference between an agreed fixed rate and the interest rate prevailing on a stipulated future date,

based on a notional amount, for an agreed period. As the interest rate is fixed now for a future period, the only payment is the difference between the agreed fixed rate and the reference rate in the future. As in the case of interest rate swaps, only notional amounts are exchanged.

Assume that on June 30, 2014, the 90 day commercial paper (CP) rate is 8.75% and the Scheme has an investment in a CP of face value 25 crores which is going to mature on September 30, 2014. If the interest rates are likely to remain stable or decline after September 2014, and if the fund manager, who wants to re-deploy the maturity proceeds for 3 more months, does not want to take the risk of interest rates going down, he can then enter into a following forward rate agreement (FRA) say as on June 30, 2014: He can receive 3 X 6 FRA on June 30, 2014 at 8.75% (FRA rate for 3 months lending in 3 months' time) on the notional amount of Rs. 25 crores, with a reference rate of 90 day CP benchmark. If the CP benchmark on the settlement date i.e. September 30, 2014 falls to 8.5%, then the Scheme receives the difference $8.75 - 8.5$ i.e. 25 basis points on the notional amount Rs. 25 crores for 3 months. The maturity proceeds are then reinvested at say 8.5% (close to the benchmark). The scheme, however, would have locked in the rate prevailing on June 30, 2012 (8.75%) as it would have received 25 basis points more as settlement amount from FRA. Thus, the fund manager can use FRA to mitigate their investment risk. In this example, if the rates move up by 25 basis points to 9% on the settlement date (September 30, 2014), the Scheme loses 25 basis points but since the reinvestment will then happen at 9%, effective returns for the Scheme is unchanged at 8.75%, which is the prevailing rate on June 30, 2012.

Forward Contracts

Forward contract is a transaction in which the buyer and the seller agree upon the delivery of a specified quality (if commodity) and quantity of underlying asset at a predetermined rate on a specified future date.

Assume that on June 30, 2012, the scheme has invested 1 million dollars in a US treasury security. Fund manager expects that the yields in the US will come down in the next 6 months and plans to sell the asset on December 31, 2012 to book the gain. Rupee is trading at 44 to a US Dollar on June 30, 2012. If rupee appreciates compared to the Dollar in these 6 months to say 43.50 per Dollar, the Scheme will earn lower returns in Rupee terms when the fund manager sells the investments on December 31, 2012 and converts the proceeds into Rupees. He can mitigate this exchange rate risk by entering into a forward contract to sell 1 million dollars on June 30, 2012 for value December 31, 2012 (6 month forward) and receive the prevailing premium of say 40 paise per Dollar i.e. he has locked in a rate of 44.40 per US Dollar for delivery on December 31, 2012. With this the Scheme is not exposed to the loss of Rupee appreciation or profit from Rupee depreciation.

Interest Rate Futures (IFS)

An interest rate futures contract is "an agreement to buy or sell a debt instrument at a specified future date at a price that is fixed today." Interest rate futures are derivative contracts which have a notional interest-bearing security as the underlying instrument. The buyer of an interest rate futures contract agrees to take delivery of the underlying debt instruments when the contract expires, and the seller of interest rate futures agrees to deliver the debt instrument. The fund can effectively use interest rate futures to hedge from increase in interest rates.

Portfolio Turnover

The Scheme being an open-ended Scheme, it is expected that there would be a number of Subscriptions and Redemptions on a daily basis. Further, in the debt market, trading opportunities may arise due to changes in system liquidity, interest rate policy announced by RBI, shifts in the yield curve, credit rating changes or any other factors. In the opinion of the fund manager these opportunities can be played out to enhance the total return of the portfolio, which will result in increase in portfolio turnover. There may be an increase in transaction cost such as brokerage paid, if trading is done frequently. However, the cost would be negligible as compared to the total expenses of the Scheme. Frequent trading may increase the profits which can offset the increase in costs.

The fund manager will endeavor to optimize portfolio turnover to maximize gains and minimize risks keeping in mind the cost associated with it. However, it is difficult to estimate with reasonable measure accuracy, the likely turnover in the portfolio of the Scheme. The Scheme has no specific target relating to portfolio turnover.

D. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

The performance of the Scheme is benchmarked against the CRISIL Dynamic Bond A-III Index. The above benchmark is line with the clause 1.9 of SEBI Master Circular dated June 27, 2024.

The Scheme intends to have a portfolio mix of instruments, which are mainly captured by CRISIL Dynamic Bond Fund A-III Index. Hence, the benchmark is an appropriate benchmark for the Scheme.

vi. Investments of AMC in the Scheme –

The AMC reserves the right to invest its own funds in the Scheme as may be decided by the AMC from time to time and in accordance with Securities and Exchange Board of India (Mutual Funds) (Second Amendment) Regulations, 2021, the AMC shall invest such amount in the scheme, based on the risk associated with the scheme. As specified in the clause 6.9 of SEBI Master Circular dated June 27, 2024, based on the current risk profile of the Scheme, the AMC is required to invest not less than 0.09 percent of the AUM of the scheme. Such investment shall be maintained at all times and shall not be redeemed unless the scheme is wound up.

For details please refer <https://www.360.one/asset-management/mutualfund/downloads/disclosures/>

The above investment shall be in accordance with clause 6.11 of SEBI Master Circular dated June 27, 2024 regarding minimum number of investors in the Scheme/ Plan. Under the Regulations, the AMC is not permitted to charge any investment management and advisory fees.

Pursuant to regulation 43A of SEBI (Mutual Funds) Regulations, 1996 and chapter 16A of SEBI Master circular dated June 27, 2024 on Investment by Mutual Fund Schemes and AMCs in units of Corporate Debt Market Development Fund, AMC shall make a one-time contribution equivalent to 2 bps of the AUM of the specified debt oriented schemes as on December 31, 2022 in the units of the Corporate Debt Market Development Fund ('CDMDF') within 10 working days of request from CDMDF. Contribution made to CDMDF, including the appreciations on the same, if any, shall be locked-in till winding up of the CDMDF.

In case of delay in contribution by the Scheme and AMC, the AMC shall be liable to pay interest at fifteen percent (15%) per annum for the period of delay.

Part III – OTHER DETAILS

A. COMPUTATION OF NAV

NAV of units under the Scheme shall be calculated as shown below:

$$\text{NAV (Rs.)} = \frac{\text{Market or Fair Value of Scheme's investments + Current Assets – Current Liabilities and Provision (including accrued expenses)}}{\text{No. of Units outstanding under Scheme/Plan on the Valuation Date}}$$

The NAV will be calculated up to four decimals. The NAV shall be calculated for close of each working day. The computation of NAV shall be in conformity with SEBI Regulations and guidelines as prescribed from time to time.

Illustration for Computation of NAV:

$$1.109 = \frac{10,01,00,000.00 + 10,00,000.00 - 10,000.00}{1,00,00,000.00} \quad \frac{10,10,90,000.00}{1,00,00,000.00}$$

Methodology for calculation of sale and re-purchase price of the units of mutual fund scheme:

- **Ongoing Price for subscription (purchase)/switch-in (from other schemes/plans of the mutual fund) by investors (This is the price you need to pay for purchase/ switch-in):**

The Sale Price for a valid purchase will be the Applicable NAV.

The NAV will be calculated by rounding up to four decimal places for the Scheme.

Assumed NAV Rs. 11 per unit. Entry Load: NIL.

Purchase Price = NAV + (Entry Load (%) * NAV)

Purchase Price = 11 + (0% * 11)

Purchase Price = 11 + 0

Purchase Price = Rs. 11/-

Transaction charges and other charges/expenses, if any, borne by the investors have not been considered in the above illustration.

- **Ongoing Price for redemption (sale)/switch out (to other schemes /plans of the mutual fund) by investors (This is the price you will receive for redemptions/ switch-outs):**

The Redemption Price / Switch out price of the Units is the price at which a Unit Holder can redeem Units of a scheme. It will be calculated as described below:

Assumed NAV Rs. 11.00 per unit. Exit Load: 1%

Sale Price = NAV – (exit load (%) * NAV)

Sale Price = $11 - (1\% \times 11)$

Sale Price = $11 - 0.11$

Sale Price = Rs.10.89

Redemption Price will be calculated up to four decimal places for the Scheme.

If the Scheme has no Exit Load, the Redemption Price will be equal to the Applicable NAV.

Transaction charges and other charges/expenses, if any, borne by the investors have not been considered in the above illustration.

Investors may note that the AMC has a right to modify the existing Load structure in any manner or introduce/ change Exit Load or a combination of Exit Load and / or any other Load subject to a maximum as prescribed under the Regulations and with prospective effect only.

The Mutual Fund will offer that the redemption price is not lower than 95% of the applicable NAV.

For other details such as policies w.r.t computation of NAV, rounding off, investment in foreign securities, procedure in case of delay in disclosure of NAV etc. please refer to SAI.

B. NEW FUND OFFER (NFO) EXPENSES

All expenses are incurred for the purpose of various activities related to the NFO like sales and distribution fees paid marketing and advertising, registrar expenses, printing and stationery, bank charges etc would be borne by the AMC and not by scheme of mutual fund.

C. ANNUAL SCHEME RECURRING EXPENSES

These are the fees and expenses for operating the Scheme. These expenses include Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' fee, marketing and selling costs etc. as given in the table below. The AMC has estimated the following annual recurring expenses on daily net assets of the Scheme. For the actual current expenses being charged, the investor should refer to the website. Further, as per clause 10.1.12 (a) of SEBI Master Circular dated June 27, 2024, all scheme related expenses including commission paid to distributors, by whatever name it may be called and in whatever manner it may be paid, shall necessarily be paid from the scheme only within the regulatory limits.

As per Regulation 52 (6) (c) of SEBI Regulations, the maximum annual scheme recurring expenses including the investment management fees that can be charged to the Scheme is as follows:

Daily Net Asset s(Rs.)	on the first Rs.500 crores	on the next Rs.250 crores of the daily net assets	on the next Rs. 1,250 crores of the daily net assets	on the next Rs. 3,000 crores of the daily net assets	on the next Rs. 5,000 crores of the daily net assets	On the next Rs. 40,000 crores of the daily net assets	On balance of the assets

% per annum	2.00%	1.75%	1.50%	1.35%	1.25%	Total expense ratio reduction of 0.05% for every increase of Rs. 5,000 crores of daily net assets or part thereof	0.80%
-------------	-------	-------	-------	-------	-------	---	-------

In addition to total expense limits mentioned above, the AMC may charge the following in terms of Regulation 52(6A) of SEBI Regulations:

- Additional expenses not exceeding of 0.30% of daily net assets for inflows from specified cities.
- Additional expenses incurred towards different heads mentioned under Regulations 52(2) and 52(4) of SEBI Regulations, not exceeding 0.05 per cent of daily net assets of the scheme.

Brokerage and transaction costs (including service tax) which are incurred for the purpose of execution of trade and is included in the cost of investment, not exceeding 0.12 per cent in case of cash market transactions and 0.05 per cent in case of derivatives transactions. Any payment towards brokerage and transaction cost, over and above the said 12 bps and 5bps for cash market transactions and derivatives transactions respectively may be charged to the scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under regulation 52. Any expenditure in excess of the said prescribed limit (including brokerage and transaction cost, if any) shall be borne by the AMC.

The AMC has estimated the following annual recurring expenses on daily net assets of the Scheme. Further, any change in the expense ratio will be updated on our website and the same will be communicated to investor via SMS / e-mail 3 working days prior to the effective date of change. For the actual current expenses being charged, the investor should refer to the website:

<https://www.360.one/asset-management/mutualfund/>:

Goods and Service Tax* on brokerage and transaction cost	
Other expenses (including listing expenses)	

Maximum total expense ratio (TER) permissible under Regulation 52 (6)(c)(i)	Upto 2.00%
§Additional expenses under regulation 52 (6A) (c)	Up to 0.05%
^Additional expenses for gross new inflows from specified cities	Up to 0.30%

These estimates of Investment Management Fees and Expenses have been made in good faith as per the information available to the Investment Manager and are subject to change inter-se, which may be more or less than estimated above. Any expenditure in excess of the said prescribed limit (including brokerage and transaction cost, if any) shall be borne by the AMC.

*In addition to expenses under Regulation 52 (6) and (6A) of SEBI Regulations, AMC may charge Goods and Service Tax on Investment Management and Advisory Fees, expenses other than Investment Management and Advisory Fees and brokerage and transaction cost as below:

- a. Goods and Service Tax on Investment Management and Advisory Fees:
AMC may charge Goods and Service Tax on Investment Management and Advisory Fees of the Scheme in addition to the maximum limit of TER as per the Regulation 52(6) and (6A) of SEBI Regulations.
- b. Goods and Service Tax on expenses other than Investment Management and Advisory Fees:
AMC may charge Goods and Service Tax on expenses other than Investment Management and Advisory Fees of the Scheme, if any within the maximum limit of TER as per the Regulation under 52(6) and (6A) of SEBI Regulations.
- c. Goods and Service Tax on brokerage and transaction cost:
The Goods and Service Tax on brokerage and transaction costs which are incurred for the purpose of execution of trade, will be within the limit of prescribed under Regulation 52 of SEBI Regulations.

^ Expenses not exceeding of 0.30 % of daily net assets, if the new inflows from retail investors from such cities as specified by the SEBI, from time to time are at least:

- 30 per cent of the gross new inflows into the scheme, or;
- 15 per cent of the average assets under management (year to date) of the scheme, whichever is higher;

Provided that if inflows from such cities are less than the higher of the above, such expenses on daily net assets of the scheme shall be charged on proportionate basis. Provided further that expenses charged under this clause shall be utilised for distribution expenses incurred for bringing inflows from such cities. Provided further that amount incurred as expense on account of inflows from such cities shall be credited back to the scheme in case the said inflows are redeemed within a period of one year from the date of investment. Inflows of amount upto Rs 2,00,000/-per transaction, by individual investors shall be considered as inflows from “retail investor.” It may be noted that these expenses shall be charged as may be permitted by SEBI from time to time.

Note - SEBI vide its letter no. SEBI/HO/IMD-SEC-3/P/OW/2023/5823/1 dated February 24, 2023 and AMFI letter dated No. 35P/ MEM-COR/ 85-a/ 2022-23 dated March 02, 2023 has directed AMCs to keep B-30 incentive structure in abeyance with effect from March 01, 2023 till further notice.

\$ In terms of clause 10.1.7 of SEBI Master Circular dated June 27, 2024, in case exit load is not levied / not applicable, the AMC shall not charge the said additional expenses.

It is estimated that expenses of Direct Plan will be lower than Regular Plan around 0.30% on daily net assets, however this an estimate and actual difference may be more or less than 0.30%. The expenses

under the Direct Plan will be lower than Regular Plan, due to no distribution expenses and distributor commission under Direct Plan.

ILLUSTRATION OF IMPACT OF EXPENSE RATIO ON SCHEME' S RETURN:

Particulars	Regular Plan	Direct Plan
Amount Invested at the beginning of the year	10,000	10,000
Returns before Expenses	1,500	1,500
Expenses other than Distribution Expenses	150	150
Distribution Expenses	50	-
Returns after Expenses at the end of the Year	1,300	1,350
Value of Investment at the end of the year	11,300	11,350

The purpose of the above illustration is to explain the impact of expense ratio of the scheme. Above calculation are bases on assumed NAV and Expenses. The actual NAV, expenses and return on your investment may be more or less.

All scheme related expenses including commission paid to distributors, by whatever name it may be called and in whatever manner it may be paid, shall necessarily paid from the scheme only within the regulatory limits and not from the books of AMC, its associate, sponsor, trustees or any other entity through any route in terms of SEBI circulars, subject to the clarifications provided by SEBI to AMFI vide letter dated February 21, 2019 on implementation of clause 10.1.12 of Master Circular on Total Expense Ratio (TER) and performance disclosure for Mutual Fund.

D. LOAD STRUCTURE

Exit Load is an amount which is paid by the investor to redeem the units from the Scheme. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of the AMC <https://www.360.one/asset-management/mutualfund/> or may call at toll free no. 1800-2108-606 or your distributor.

Type of Load	Load chargeable (as % of NAV)
Exit load	Nil. The revised exit load as mentioned above shall be applicable on a prospective basis and will be applicable to all investments made on or after July 6, 2020 ("effective date"). All prior investments shall continue to be subject to the load structure as may have been applicable at the time of their original investments. Revised exit load structure mentioned herein above shall be applicable prospectively, for all investments (including SIP/SWP/STP registered) from the effective date.

The entire exit load (net of Goods and Service Tax) received shall be credited back to the Scheme.

- No Exit Load shall be levied for switching between Plans /Options
- However, exit load will be applicable if the units are switched-out / redeemed from the Scheme within the exit load period from the initial date of purchase.
- No Exit load will be levied on Units allotted on Re-investment of Income Distribution cum Capital Withdrawal.
- In case of Systematic Transactions such as Systematic Investment Plan (SIP), Systematic Transfer Plan (STP), Exit Load, if any, prevailing on the date of registration / enrolment shall be levied.

Section II

I. Introduction

A. Definition/interpretation

For detailed description of definitions/interpretations, please visit <https://www.360.One/asset-management/mutualfund/downloads/information-documents/> .

B. Risk Factors

- Standard Risk Factors:

- Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
- As the price/value/interest rates of the securities in which the Scheme invests fluctuates, the value of your investment in the Scheme may go up or down depending on the factors and forces affecting the capital market/bullion market.
- Past performance of the Sponsors/AMC/Mutual Fund does not guarantee the future performance of the Scheme.
- The name of the Scheme does not in any manner indicate either the quality of the Scheme or its future prospects and the returns. Investors are therefore urged to study the terms of offer carefully and consult their Investment Advisor before they invest in the Scheme.
- The Sponsor is not responsible or liable for any loss or shortfall resulting from the operation of the Scheme beyond the initial contribution made by it of an amount of Rs. 1 Lac towards setting up of the Mutual Fund.
- The present Scheme is not a guaranteed or assured return Scheme.

- Scheme Specific Risk Factors

The performance of the Scheme may be affected by changes in macroeconomic factors such as Government policies, general levels of interest rates and risks associated with trading volumes, liquidity and settlement systems. Below mentioned are the risks to the portfolio:

Interest Rate/Price risk: This risk is associated with movements in interest rate, which depend on various factors such as government borrowing, inflation, economic performance etc. The values of investments will appreciate/depreciate if the interest rates fall/rise. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices generally increase. The extent of fall or rise in the prices depends upon factors such as coupon, residual maturity of the security, micro and macroeconomic scenario as well as the yield level at which the security is being traded.

Credit Risk/Default risk: Credit risk is the risk that the issuer of a debenture/ bond or a money market instrument may default on interest &/or principal payment obligations. This risk arises due to any uncertainty in counterparty's ability or willingness to meet its contractual obligations. Even

when there is no default, the price of a security may change with expected changes in the credit rating of the issuer. Corporate bonds carry a higher credit risk than Government Securities. Within corporate bonds as well, there are different levels of safety. Credit risks of most issuers of debt securities are rated by independent and professionally run rating agencies. Ratings of Credit issued by these agencies typically range from “AAA” (read as “Triple A” denoting “Highest Safety”) to “D” (denoting “Default”), with about 6 distinct ratings between the two extremes. A bond rated higher by a particular rating agency is safer than a bond rated lower by the same rating agency. The highest credit rating (i.e. lowest credit risk) commands a lower yield for the borrower. Conversely, a lower rated credit borrower would raise funds at a relatively higher cost. On account of a higher credit risk for lower rated borrowers, lenders prefer higher rated instruments further justifying the lower yields.

Re-investment Risk: Investments in fixed income securities may carry re-investment risk as interest rates prevailing on the interest or maturity due dates may differ from the original coupon of the bond. Consequently, the proceeds may get invested at a lower rate.

Spread Risk: In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. In the life of the security this spread may move adversely leading to loss in value of the portfolio. The yield of the underlying benchmark might not change, but the spread of the security over the underlying benchmark might increase leading to loss in value of the security.

Counterparty Risk: This is the risk of failure of counterparty to the transaction to deliver securities against consideration received or to pay consideration against securities delivered, in full or in part or as per the agreed specification. There could be losses to the scheme in case of counterparty default.

Inflation risk: Inflation, in most basic terms, erodes the purchasing power of money and also withers the value of existing investments; in other words, it reduces the purchasing power of a bond investor’s future interest payments and principal, collectively known as “cash flows.” Inflation also leads to higher interest rates, which in turn leads to lower bond prices.

Liquidity risk: The liquidity of a bond may change depending on market conditions leading to changes in the liquidity premium linked to the price of the bond. At the time of selling the security, the security can become illiquid leading to loss in the value of the portfolio. There could therefore be difficulties in exiting from corporate bonds in times of uncertainties. Liquidity in a scheme therefore may suffer.

Liquidity Risk on account of unlisted securities: The liquidity and valuation of the Scheme investments due to their holdings of unlisted securities may be affected if they have to be sold prior to their target date of divestment. The unlisted security can go down in value before the divestment date and selling of these securities before the divestment date can lead to losses in the portfolio.

Settlement Risk: Fixed income securities run the risk of settlement which can adversely affect the ability of the fund house to swiftly execute trading strategies which can lead to adverse movements in NAV.

Risk of Rating Migration: It may be noted that the price of a rated security would be impacted with the change in rating and hence, there is risk associated with such migration.

Risk Associated with Securitized Debt and PTC

The Scheme may invest in domestic securitized debt such as Asset Backed Securities (“ABS”) or Mortgage-Backed Securities (“MBS”). ABS are securitized debts where the underlying assets are receivables arising from various loans including automobile loans, personal loans, loans against consumer durables, etc. MBS are securitized debts where the underlying assets are receivables arising from loans backed by mortgage of residential / commercial properties. At present in Indian market, following types of loans are securitized:

1. Auto Loans (cars / commercial vehicles /two wheelers)
2. Residential Mortgages or Housing Loans
3. Consumer Durable Loans
4. Personal Loans
5. Corporate Loans

In terms of specific risks attached to securitization, each asset class would have different underlying risks. Residential Mortgages generally have lower default rates than other asset classes, but repossession becomes difficult. On the other hand, repossession and subsequent recovery of commercial vehicles and other auto assets is fairly easier and better compared to mortgages. Asset classes like personal loans, credit card receivables are unsecured and in an economic downturn may witness higher default. The rating agency defines margins, over collateralization and guarantees to bring risk in line with similar AAA rated securities. The factors typically analyzed for any pool are as follows:

- a. **Assets securitized and size of the loan:** This indicates the kind of assets financed with the loan and the average ticket size of the loan. A very low-ticket size might mean more costs in originating and servicing of the assets.
- b. **Diversification:** Diversification across geographical boundaries and ticket sizes might result in lower delinquency.
- c. **Loan to Value Ratio:** Indicates how much % value of the asset is financed by borrower’s own equity. The lower this value the better it is. This suggests that where the borrower’s own contribution of the asset cost is high; the chances of default are lower.
- d. **Average seasoning of the pool:** This indicates whether borrowers have already displayed repayment discipline. The higher the number, the more superior it is.

The other main risks pertaining to Securitized debt are as follows:

Prepayment Risk: This arises when the borrower pays off the loan sooner than expected. When interest rates decline, borrowers tend to pay off high interest loans with money borrowed at a lower interest rate, which shortens the average maturity of ABS. However, there is some prepayment risk even if interest rates rise, such as when an owner pays off a mortgage when the house is sold, or an auto loan is paid off when the car is sold.

Reinvestment Risk: Since prepayment risk increases when interest rates decline, this also introduces reinvestment risk, which is the risk that the principal can only be reinvested at a lower rate.

Risk Associated with Derivatives

Derivatives product are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies. The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments. As and when the Scheme trades in derivative products, there are risk factors and issues concerning the use of derivatives that investors should understand. Derivatives require the maintenance of adequate controls to monitor the transactions and the embedded market risks that a derivative adds to the portfolio. Besides the price of the underlying asset, the volatility, tenor and interest rates affect the pricing of derivatives.

Other risks in using derivatives include but are not limited to:

Credit Risk – this occurs when a counterparty defaults on a transaction before settlement and therefore, the Scheme is compelled to negotiate with another counter party, at the then prevailing (possibly unfavorable) market price, in order to maintain the validity of the hedge. For exchange traded derivatives, the risk is mitigated as the exchange provides a guaranteed settlement, but one takes the performance risk on the exchange.

Market Liquidity risk where the derivatives cannot be sold (unwound) at prices that reflect the underlying assets, rates and indices.

Model Risk, the risk of mis–pricing or improper valuation of derivatives. Trading in derivatives carry a high degree of risk although they are traded at a relatively small amount of margin which provides the possibility of great profit or loss in comparison with the principal investment amount.

The Scheme may find it difficult or impossible to execute derivative transactions in certain circumstances. For example, when there are insufficient bids or suspension of trading due to price limit or circuit breakers, the Scheme may face a liquidity issue. The Scheme bears a risk that it may not be able to correctly forecast future market trends or the value of assets, indexes or other financial or economic factors in establishing derivative positions for the Scheme.

The derivatives market in India is nascent and does not have the volumes that may be seen in other developed markets, which may result in volatility in the values.

Interest Rate Swaps (IRS) are highly specialized instruments that require investment technique and risk analysis different from those associated with equity shares and other traditional securities. The use of a IRS requires not only an understanding of the referenced asset, reference rate, or index but also of the swap itself, without the benefit of observing the performance of the swap under all possible market conditions. Swap agreements are also subject to liquidity risk, which exists when a particular swap is difficult to purchase or sell. Swap agreements may be subject to pricing risk, which exists when a particular swap becomes extraordinarily expensive (or cheap) relative to historical prices or the prices of corresponding cash market instruments. IRS agreements are also subject to counterparty risk on account of insolvency or bankruptcy or failure of the counterparty to make required payments or otherwise comply with the terms of the agreement.

Risks associated with Securities Lending

Securities Lending is a lending of securities through an approved intermediary to a borrower under an agreement for a specified period with the condition that the borrower will return equivalent securities of the same type or class at the end of the specified period along with the corporate benefits accruing on the securities borrowed. In case the Scheme undertakes stock lending as prescribed in the Regulations, it may, at times be exposed to counter party risk and other risks associated with the securities lending. Unitholders of the Scheme should note that there are risks inherent to securities lending, including the risk of failure of the other party, in this case the approved intermediary, to comply with the terms of the agreement entered into between the lender of securities i.e. the Scheme and the approved intermediary. Such failure can result in the possible loss of rights to the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities lent. The Fund may not be able to sell such lent securities and this can lead to temporary illiquidity.

Risk Associated with Investment in REIT/InvIT:

Market Risk: REITs and InvITs are volatile and prone to price fluctuations on a daily basis owing to market movements. Investors may note that AMC/Fund Manager's investment decisions may not always be profitable, as actual market movements may be at variance with the anticipated trends. The NAV of the Scheme is vulnerable to movements in the prices of securities invested by the scheme, due to various market related factors like changes in the general market conditions, factors and forces affecting capital market, level of interest rates, trading volumes, settlement periods and transfer procedures.

Liquidity Risk: As the liquidity of the investments made by the Scheme(s) could, at times, be restricted by trading volumes and settlement periods, the time taken by the Mutual Fund for liquidating the investments in the scheme may be high in the event of immediate redemption requirement. Investment in such securities may lead to increase in the scheme portfolio risk.

Reinvestment Risk: Investments in REITs & InvITs may carry reinvestment risk as there could be repatriation of funds by the Trusts in form of buyback of units or IDCW pay-outs, etc. Consequently, the proceeds may get invested in assets providing lower returns. The above are some of the common risks associated with investments in REITs & InvITs. There can be no assurance that a Scheme's investment objectives will be achieved, or that there will be no loss of capital. Investment results may vary substantially on a monthly, quarterly or annual basis.

Backstop facility in form of investment in Corporate Debt Market Development Fund (CDMDF):

CDMDF is set up as a scheme of the Trust registered as an Alternative Investment Fund ('AIF') in accordance with the SEBI (Alternative Investment Funds) Regulations, 2012 ("AIF Regulations"). The objective of the CDMDF is to help to develop the corporate debt market by providing backstop facility to instill confidence amongst the market participants in the corporate debt/bond market during times of market dislocation and to enhance the secondary market liquidity. In times of market dislocation, CDMDF shall purchase and hold eligible corporate debt securities from the participating investors (i.e., specified debt-oriented MF schemes to begin with) and sell as markets recover. The CDMDF will thus

act as a key enabler for facilitating liquidity in the corporate debt market and to respond quickly in times of market dislocation. The trigger and period for which the backstop facility will be open shall be as decided by SEBI. Thus this backstop facility will help fund managers of the aforementioned Schemes to better generate liquidity during market dislocation to help the schemes fulfill liquidity obligations under stress situation.

In accordance with the requirement of regulation 43A of SEBI (Mutual Funds) Regulations, 1996 read with chapter 16A of SEBI Master circular dated June 27, 2024 on Investment by Mutual Fund Schemes in units of Corporate Debt Market Development Fund, the aforementioned schemes shall invest 25 bps of its AUM as on December 31, 2022 in the units of the Corporate Debt Market Development Fund ('CDMDF'). An incremental contribution to CDMDF shall be made every six months to ensure 25 bps of scheme AUM is invested in units of CDMDF. However, if AUM decreases there shall be no return or redemption from CDMDF. Contribution made to CDMDF, including the appreciations on the same, if any, shall be locked-in till winding up of the CDMDF.

We would further like to bring to the notice of the investors that investments in CDMDF units shall not be considered as violation while considering maturity restriction as applicable for various purposes (including applicable Investment limits) and the calculations of Potential Risk Class (PRC) Matrix, Risk-o-meter, Stress testing and Duration for various purposes shall be done after excluding investments in units of CDMDF.

C. Risk Mitigation Strategies

The investment team of the AMC takes an active view on the key drivers affecting interest rate scenario. Investment views / decisions will be based on an analysis of macroeconomic and other relevant factors to estimate the direction of interest rates and level of liquidity, in an attempt to optimize the risk adjusted returns on the portfolio. Portfolios are rebalanced on a dynamic basis as per the objective of the scheme to optimize returns whilst managing risks at all points in time. The credit quality of the portfolio is maintained and monitored using in-house research capabilities as well as inputs from external sources such as independent credit rating agencies.

Whilst all risks such as interest rate risk, liquidity risk, default risk, reinvestment risk, etc. cannot be eliminated, they may be minimized through diversification, research and effective use of hedging techniques. The AMC would incorporate adequate safeguards to minimize above mentioned risks in the portfolio construction and management process.

To achieve this, an internal Investment Committee meets regularly to provide overall guidance for the investment management process. The committee periodically reviews investment strategies and adherence to scheme objectives and restrictions. The Investment Committee Periodically reviews the investment strategies and philosophy and adherence to all scheme parameters.

II. Information about the scheme:

A. Where will the scheme invest –

Certificate of Deposit (CD): of scheduled commercial banks and development financial Institutions
Certificate of Deposit (CD) is a negotiable money market instrument issued by scheduled commercial banks and select all-India Financial Institutions that have been permitted by the RBI to raise short

term resources. The maturity period of CDs issued by the Banks is between 7 days to one year, whereas, in case of FIs, maturity is one year to 3 years from the date of issue.

Commercial Paper (CP): Commercial Paper (CP) is an unsecured negotiable money market instrument issued in the form of a promissory note, generally issued by the corporates, primary dealers and all India Financial Institutions as an alternative source of short term borrowings. CP is traded in secondary market and can be freely bought and sold before maturity.

Repo of Government Securities: Repo (Repurchase Agreement) or Reverse Repo is a transaction in which two parties agree to sell and purchase the same security with an agreement to purchase or sell the same security at a mutually decided future date and price. The transaction results in collateralized borrowing or lending of funds.

Treasury Bill (T-Bill): Treasury Bills (T-Bills) are issued by the Government of India or State Governments to meet their short term borrowing requirements. T-Bills are issued for maturities of 91 days, 182 days and 364 days. T-Bills are issued at a discount and for a fixed period.

Tri-party repo (TREPS): Tri-party repo is a type of repo contract where a third entity (apart from the borrower and lender), called a Tri-Party Agent, acts as an intermediary between the two parties to the repo to facilitate services like collateral selection, payment and settlement, custody and management during the life of the transaction.

Securities created and issued by the Central and State Governments as may be permitted by RBI, securities guaranteed by the Central and State Governments (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills). State Government securities (popularly known as State Development Loans or SDLs) are issued by the respective State Government in co-ordination with the RBI.

Non-convertible debentures and bonds: Non-convertible debentures as well as bonds are securities issued by companies / Institutions promoted /owned by the Central or State Governments and statutory bodies which may or may not carry a Central/State Government guarantee, Public and private sector banks, all India Financial Institutions and Private Sector Companies. These instruments may be secured or unsecured against the assets of the Company and generally issued to meet the short term and long term fund requirements. The Scheme may also invest in the non-convertible part of convertible debt securities.

Floating rate debt instruments: Instruments issued by Central / state governments, corporates, PSUs, etc. with interest rates that are reset periodically.

Pass through Certificate (PTC): (Pay through or other Participation Certificates) represents beneficial interest in an underlying pool of cashflows. These cash flows represent dues against single or multiple loans originated by the sellers of these loans. These loans are given by banks or financial institutions to corporates. PTCs may be backed, but not exclusively, by receivables of personal loans, car loans, two-wheeler loans and other assets subject to applicable regulations.

When issued: When, as and if issued (commonly known as “when-issued” (WI) security) refers to a security that has been authorized for issuance but not yet actually issued. WI trading takes place between the time a new issue is announced and the time it is actually issued. All “when issued”

transactions are on an “if” basis, to be settled if and when the actual security is issued. SEBI has on April 16, 2008 in principle allowed Mutual Funds to undertake “When Issued (WI)” transactions in Central Government securities, at par with other market participants.

Open Positions in the WI market are subject to the following limits:

Category	Reissued Security	Newly Issued Security
Non-PDs	Long Position, not exceeding 5 percent of the notified amount	Long Position, not exceeding 5 percent of the notified amount.

Securitized Assets: Securitization is a structured finance process which involves pooling and repackaging of cashflow producing financial assets into securities that are then sold to investors. All assets can be securitized so long as they are associated with cash flows. A Pass Through Certificate (PTC) represents beneficial interest in an underlying pool of cash flows. These cash flows represent dues against single or multiple loans originated by the sellers of these loans. These loans are given by banks or financial institutions to corporates. PTCs may be backed, but not exclusively, by receivables of personal loans, car loans, two-wheeler loans and other assets subject to applicable regulations. A typical process of asset securitization involves sale of specific receivables to a Special Purpose Vehicle (SPV) set up in the form of a trust or a company. The SPV in turn issues financial instruments (promissory notes, participation certificates or other debt instruments) also referred to as Securitized Debt to the investors evidencing the beneficial ownership of the investors in the receivables. The financial instruments are rated by an independent credit rating agency.

The Scheme may invest in various type of securitisation issuances. The Scheme does not propose to limit its exposure to only one asset class or to have asset class based sub-limits as it will primarily look towards the credit rating of the offering.

Disclosures regarding investments in Securitised Debt:

- 1. Evaluation of Securitised Debt:** A pre-investment risk evaluation procedure similar to the one applied to other debt instruments will be applied to analyse the risk profile of the securitised debt instruments and to ascertain that the same is in line with the investment objective of the Scheme. Normally, the risk of investing in securitized debts is similar to investing in debt securities. However as securitised debt involves staggered cash flows from underlying loans, there is always a risk of prepayment of loan installments by the ultimate borrower which may reduce the returns of the Scheme if the reinvestment rates are lower than initially envisaged. Also, securitised debts have a relatively lower liquidity compared to other debt securities. Securitised debts, typically offer higher yield than debt securities of similar rating and maturity due to the aforementioned additional risks. If the fund manager is of the view that the additional risks are suitably compensated by higher returns, then investments will be made in securitised debts subject to applicable limits. The Scheme will predominantly invest only in those securitization issuances which have at least an investment grade credit rating indicating high level of safety from the credit risk point of view at the time of making an investment.
- 2. Policy relating to originators:** To be based on nature of originator, track record, NPAs, losses in earlier securitized debt, etc. The Originator is the entity who has initially given the loan and transferred the receivables to a SPV. The Scheme shall invest in those securitised debts, whose Originator is a Corporate Entity, being a Bank or an NBFC. Further, before investing in securitised debts, the Originator will be evaluated on the following critical parameters and a detailed report will be compiled:
 - _ Transaction structure including Par versus premium and credit enhancement

- _ Reputation of Originator in the market
- _ Proportion of overdue assets of the pool or the underlying loan, as the case may be
- _ Track record of servicing of the pool or the loan, as the case may be
- _ Any disputes or litigations in the originated pools
- _ Credit quality and rating
- _ Loan to Value ratio
- _ Liquidity facility

3. Risk mitigation strategies for investments with each kind of originator - Risk would be mitigated to a large extent by the critical evaluation parameters mentioned above. Further, risk mitigation strategies typically include additional credit enhancement, overcollateralization, interest subvention, presence of subordinate tranches, analyzing ageing of the pools i.e. how long the loan has been with Originator before securitization etc.
4. The level of diversification with respect to the underlying assets, and risk mitigation measures for less diversified investments - Currently, the securitized market in India is at a nascent stage. There are only few kinds of securitized assets available in the market. The limitation of options has kept diversification of underlying assets low. However, the Scheme will endeavour to maintain diversification with respect to the underlying assets by investing in various types of pools after evaluating each category on the basis of the approximate average maturity, maximum single exposure, average single exposure, average loan to value ratio, the collateral margin etc. Also, strict pre-investment review of the originators, underlying assets and the borrower 's credit profile will be conducted.
5. The level of diversification with respect to the underlying assets, and risk mitigation measures for less diversified investments:

Characteristics/ Pool	Type of	Mortgage Loan#	CV & CE	Cars	2 Wheelers	Micro Finance Pools @	Personal Loans	Single Sell Downs
Approximate maturity (in Months) *	Average	Up to 10 years	Up to 2 years	Up to 2 years	Up to 2 years	NA	NA	Refer to Note A
Collateral margin (including cash guarantees, excess interest spread, subordinate tranche)		>10%	>10%	>10%	>10%	NA	NA	
Average Loan to Value Ratio (%)		<90%	<80%	<80%	<80%	NA	NA	
Average seasoning of the Pool (months)		>3 Months	>3 Months	>3 Months	>3 Months	NA	NA	
Maximum single exposure range%		<1%	<1%	<1%	<1%	NA	NA	

Average single exposure range %	<1%	<1%	<1%	<1%	NA	NA	
---------------------------------	-----	-----	-----	-----	----	----	--

NOTE A: In case of securitization involving single loans or a small pool of loans, the credit risk of the borrower is analyzed. The investment limits applicable to the underlying borrower are applied to the single loan sell-down.

6. Minimum retention period of the debt by originator prior to securitization - RBI governs the issuance of securitised debts in India. It has formulated guidelines for minimum retention period. Depending on the tenor of the securitised assets and the type of repayment schedule viz. periodic repayment or bullet repayment, nine or twelve months have been prescribed as the minimum retention period before the assets can be securitised.
7. Minimum retention percentage by originator of debts to be securitized - RBI has prescribed the minimum retention percentage as 5% or 10% of the book value of the loans being securitised depending on the original maturity of the loans and the features of the securitisation transaction.
8. The mechanism to tackle conflict of interest when the mutual fund invests in securitized debt of an originator and the originator in turn makes investments in that particular scheme of the fund - The investments in securitised debts are made on the basis of the independent assessments of the research team and the judgements of the fund manager. Our internal processes are designed to ensure complete independence of the research and investment process from the sales business.
9. In general, the resources and mechanism of individual risk assessment with the AMC for monitoring investment in securitized debt. The fund management team has the required experience to analyse and monitor investments in securitized debts. On an on-going basis the rating movement of the securitised debts will be monitored. Credit research agencies also provide analysis of individual instruments and pools. The periodic reports received by the AMC on pool performance will be scanned to check for any change in asset quality and related impact on debt servicing and any impact that it can have on the credit ratings.

Investment in Short Term Deposits

Pending deployment of funds as per the investment objective of the Scheme, the funds may be parked in short term deposits of Scheduled Commercial Banks, subject to guidelines and limits specified by SEBI.

The aforementioned securities may be acquired through Initial Public Offering (IPOs), secondary market, private placement, rights offers, negotiated deals. Further investments in debentures, bonds and other fixed income securities will be in instruments which have been assigned investment grade rating by the Credit Rating Agency.

Investment in unrated debt instruments shall be subject to complying with the provisions of the Regulations and within the limit as specified in Schedule VII to the Regulations.

The securities / instruments mentioned above and such other securities the Scheme is permitted to invest in could be listed, unlisted, privately placed, secured, unsecured, rated or unrated and of any maturity subject to investment limits specified elsewhere in this document as prescribed under SEBI Regulations. The Fund Manager reserves the right to invest in such securities as may be permitted from time to time and which are in line with the investment objectives of the Scheme.

Investment in Corporate Debt Market Development Fund (CDMDF)

In accordance with the requirement of regulation 43A of SEBI (Mutual Funds) Regulations, 1996 read with chapter 16 A of SEBI Master circular dated June 27, 2024 on Investment by Mutual Fund Schemes and AMCs in units of Corporate Debt Market Development Fund, scheme shall invest 25 bps of its AUM.

CDMDF Framework

CDMDF shall comply with the Guarantee Scheme for Corporate Debt (GSCD) as notified by Ministry of Finance vide notification no. G.S.R. 559(E) dated July 26, 2023 and chapter 16A of SEBI Master circular dated June 27, 2024 and circulars / guidelines/ Letters issued by SEBI and AMFI from time to time, which includes the framework for corporate debt market development fund. The framework will inclusive of following points:

- a) The CDMDF shall deal only in following securities during normal times: – Low duration Government Securities – Treasury bills – Tri-party Repo on G-sec – Guaranteed corporate bond repo with maturity not exceeding 7 days.
- b) The fees and expenses of CDMDF shall be as follows: – During Normal times: (0.15% + tax) of the Portfolio Value charged on daily pro-rata basis. – During Market stress: (0.20% + tax) of the Portfolio Value charged on daily pro-rata basis. – “Portfolio Value” means the aggregate amount of portfolio of investments including cash balance without netting off of leverage undertaken by the CDMDF.
- c) Corporate debt securities to be bought by CDMDF during market dislocation include listed money market instruments. The long term rating of issuers shall be considered for the money market instruments. However, if there is no long term rating available for the same issuer, then based on credit rating mapping of CRAs between short term and long term ratings, the most conservative long term rating shall be taken for a given short term rating.
- d) CDMDF shall follow the Fair Pricing document, while purchase of corporate debt securities during market dislocation as specified in chapter 16A of SEBI Master circular dated June 27, 2024 and circulars / guidelines/ Letters issued by SEBI and AMFI from time to time
- e) CDMDF shall follow the loss waterfall accounting and guidelines w.r.t. purchase allocation and trade settlement of corporate debt securities bought by CDMDF, specified in chapter 16A of SEBI Master circular dated June 27, 2024 and circulars / guidelines/ Letters issued by SEBI and AMFI from time to time.

Debt and Money Market Overview

The Indian Debt Market has grown in size substantially over the years. The Government securities consist of both the Central and State Government securities. RBI acts as the debt manager for the Centre and the States. As a debt manager, RBI is not only the issuer but also procedurally maintains a record of ownership and the transactions that take place in Government securities. RBI is also the regulator of the market for Government securities. The Reserve Bank of India has been taking steps to make the Indian Debt Market efficient and vibrant. Broadly, the debt market is divided in two parts viz. the Money Market and the Debt market. Money market instruments have a tenor of less than one year while debt market instruments have a tenor of more than one year. Money market instruments are typically commercial paper, certificates of deposit, treasury bills, TREPS (Tri Party Repo Dealing System) etc. Debt market comprises typically of securities issued by Governments (Central and State), Banks, Financial Institutions, and Companies in the private and public sector, Corporations, Statutory Bodies etc.

The trading in Government securities and Treasury Bills is mainly done through the OMS (Order Matching System) introduced by CCIL and RBI's NDS PDO. Other debt securities like corporate bonds and money market instruments are mainly traded over the counter (OTC), where counterparties deal directly or through broker platforms. FIMMDA Trade Reporting and Confirmation System (F-TRAC) is used for capturing/ reporting of trades in certificate of deposit, commercial paper and outright corporate bonds trades in secondary market and (iii) repo transactions in corporate bonds. The National Stock Exchange of India Limited has a separate trading platform called the Wholesale Debt Market segment where trades put through member brokers are reported. BSE (Bombay Stock Exchange) also has a similar platform. CCIL (Clearing Corporation of India) have set up platform for lending and borrowing through the TREPS (Tri Party Repo Dealing System) dealing system and CROMS (Repo Order Matching system). TREPS facilitates, borrowing and lending of funds, in Triparty Repo arrangement. CCIL is the central counterparty to all trades from Tri Party Repo Dealing System (TREPS) and also performs the role and responsibilities of Triparty Repo Agent, as, in terms of Repurchase Transactions (Repo) (Reserve Bank) Directions, 2018 and as amended from time to time by RBI. These dealing systems have been fairly successful and in addition to the call money market account for bulk of the overnight lending and borrowing activities of market participants for short term surpluses. Promoted by major banks and financial institutions, The Clearing Corporation of India Limited (CCIL) was incorporated on April 30, 2001. The CCIL guarantees the settlement of all trades executed through NDS. The clearing and settlement risks viz., Counter party Credit Risk and Operational Risk are mitigated by CCIL thereby facilitating a smooth settlement process.

India's bond market is pivotal in the country's economic structure. As of September 2023, the government bond market size stands impressively at \$1.3 trillion, with corporate bonds at \$0.6 trillion. However, foreign portfolio investment (FPI) in these markets is relatively modest at \$8.5 billion. Initiatives like the Retail Direct platform make it easier for individuals to buy government securities directly from the Reserve Bank of India (RBI). The platform had close to 1 lakh registrations until May 2023. In Sep 2023, JP Morgan announced the inclusion of Indian Government Bonds (IGBs) in their Emerging Market Government Bond Index that manages \$200 billion for investors across the globe. Because of this, other bond index providers are expected to consider and include Indian bonds in their indices prompting inflows in IGBs. After clocking a compound annual growth rate (CAGR) of ~9% over the past five fiscals, the Indian corporate bond market appears set for even faster growth. CRISIL Ratings expects outstanding size of bond market to more than double from ~Rs 43 lakh crore as of last fiscal to Rs 100-120 lakh crore by fiscal 2030. Even the ticket size of investing in many corporate bonds has fallen from Rs. 10 lakh to Rs. 10,000 now.

The following table gives approximate yields prevailing as on April 30, 2025 on some of the money and debt market instruments. These yields are indicative and do not indicate yields that may be obtained in future as interest rates keep changing. RFQ is the latest platform added to the wholesale debt market which provides online dealing in corporate bonds between bond investors, further it is also integrated in NDS-OM system. OIS through CCIL acts as good hedging tool for investors where compared to past now CCIL acts as an counterparty both sides hence removing the counter-party risk. Lot of global practice in risk management and Debt IPO of bonds are now conducted in a more transparent manner with better efficiency and bigger participation across the investor class.

Instruments	Yield (% per annum)
TREPS	5.70 – 5.80
91 Day Treasury Bill	5.85 – 5.95
364 Day Treasury Bill	5.90 – 6.00
1 Year CD	6.75 – 6.85
1 Year CP	6.80 – 6.90
5 -Year Government of India Security	6.10 – 6.20
10-Year Government of India Security	6.35 – 6.45

Types of securities

There are variety of securities and products available in the debt market. Let us try and understand the nature of some of the most prominent products in the Indian economy.

- **G-Sec (government securities):** G-Secs in India currently have a face value of ` 100/- and are issued by the RBI on behalf of the Government of India. All G-Secs are normally coupon (Interest rate) bearing and have semiannual coupon or interest payments with tenure of between 5 to 30 years. This may change according to the structure of the Instrument.
- **SDLs (State Development Loans):** SDLs are issuance of respective states in order to manage finances of their own state. All the features of SDLs are similar to G-Sec except that normally they are issued for maximum maturity of 10 Years and their pricing considers fiscal health of the respective states and risk element associated therein. For this reason SDLs are issued/traded at market determined spread above the corresponding benchmark G-Sec.
- **benchmark G-Sec. Treasury Bills/Cash Management Bills (CMB):** Treasury Bills are for short-term instruments issued by the RBI for the Government for financing the temporary funding requirements and are issued for maturities of 91 Days, 182 Days and 364 Days, whereas CMBs are issued for maturity below 91 days. T-Bills/ CMBs have a face value of ` 100 but have no coupon (no interest payment). T-Bills are instead issued at a discount to the face value (say @ ` 95) and redeemed at par (` 100). The difference of ` 5 (100 - 95) represents the return to the investor obtained at the end of the maturity period.
- **Commercial Paper:** Commercial Paper (CP) is an unsecured money market instrument issued by corporates in the form of a promissory note.
- **Certificate of Deposit:** Certificate of Deposit (CD) is a negotiable money market instrument issued by banks in dematerialised form or as Usance Promissory Note in the form of a promissory note.
- **Fixed Rate Bonds:** This is the most popular type of corporate bond traded in most of the markets, paying a semiannual but fixed coupon over their life and the principal at the end of the maturity.
- **Floating Rate Bonds:** These are the bonds, even if the coupon of which are usually paid semi annually, the coupon rate is not fixed throughout the life and varies over time with reference to some benchmark rate. These types of bonds may have some Floor or Cap attached on it, representing that even if the benchmark rate changes by any value, the coupon rate even if floating but will always lie

within the range of Floor and Cap rate. Some of the well known benchmark rates used in Indian market are MIBOR, Call Rate, T-bill rate, PLR, etc.

- **Debentures:** Debentures are also fixed interest debt instruments with different maturity, but is usually secured in nature and therefore offer slower interest comparative to bonds. Debentures, based on their convertibility to the form of equity, can be of three types: Non Convertible (NCD), Partially Convertible (PCD), and Fully Convertible Debenture (FCD).
- **Tax-saving infrastructure Bonds:** In order to facilitate infrastructure financing through the bond route, some special types of taxfree bonds, issued by some infrastructure companies, are offered to the investors.
- **Zero Coupon Bonds:** Zero Coupon Bonds (ZCBs) are issued at a discount to their face value and the principal/face value is repaid to the holders at the time of maturity. Instead of paying any periodic coupons, the ZCB holder gets the price discount in the beginning itself. Therefore, ZCBs are alternatively known as Deep Discount Bonds. Treasury Bills and CMBs are example of Zero Coupon Bonds.

B. What are the investment restrictions?

The following investment limitations and other restrictions, inter-alia, as contained in the Trust Deed and the Regulations apply to the Scheme:

- A scheme may invest in another scheme, under the same AMC or any other mutual fund provided that the aggregate inter-scheme investments made by all schemes under the same AMC or any other mutual fund shall not exceed 5% of the net assets of the Fund or any other limit as prescribed by the Regulations from time to time. The AMC is not permitted by the Regulations to charge any investment management and advisory services fee on such investments.
- As per clause 12.8 of SEBI Master Circular dated June 27, 2024, A mutual fund scheme shall not invest more than:
 - a. 10% of its NAV in debt and money market securities rated AAA; or
 - b. 8% of its NAV in debt and money market securities rated AA; or
 - c. 6% of its NAV in debt and money market securities rated A and below issued by a single issuer.The above investment limits may be extended by up to 2% of the NAV of the scheme with prior approval of the Board of Trustees and Board of Directors of the AMC, subject to compliance with the overall 12% limit specified in clause 1 of Seventh Schedule of MF Regulation.
- The scheme shall not invest in unlisted debt instruments including commercial papers (CPs), other than (a) government securities, (b) other money market instruments and (c) derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc. which are used by mutual funds for hedging.

Provided further that the scheme may invest in unlisted Non-Convertible Debentures (NCDs) not exceeding 10% of the debt portfolio of the scheme subject to the condition that such unlisted NCDs have a simple structure (i.e. with fixed and uniform coupon, fixed maturity period, without any options, fully paid up upfront, without any credit enhancements or structured obligations) and are rated and secured with coupon payment frequency on monthly.

Provided further that mutual fund schemes shall comply with the norms under this clause within the time and in the manner as may be specified by the Board:

Provided further that the scheme may invest in unrated debt and money market instruments, other than government securities, treasury bills, derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc. by the scheme shall be subject to the following:

- a. Investments should only be made in such instruments, including bills rediscounting, usance bills, etc., that are generally not rated and for which separate investment norms or limits are not provided in SEBI (Mutual Fund) Regulations, 1996 and various circulars issued thereunder.
 - b. Exposure of the scheme in such instruments, shall not exceed 5% of the net assets of the scheme.
 - c. All such investments shall be made with the prior approval of the Board of AMC and the Board of Trustees.
- The investment by the Scheme in the following instruments shall not exceed 10% of the debt portfolio of the scheme and the group exposure in such instruments shall not exceed 5% of the debt portfolio of the scheme:
- a. Unsupported rating of debt instruments (i.e. without factoring-in credit enhancements) is below investment grade and
 - b. Supported rating of debt instruments (i.e. after factoring-in credit enhancement) is above investment grade.

These limits shall not be applicable on investments in securitized debt instruments, as defined in SEBI (Public Offer and Listing of Securitized Debt Instruments) Regulations 2008.

Investment in debt instruments, having credit enhancements backed by equity shares directly or indirectly, shall have a minimum cover of 4 times considering the market value of such shares. Further, the investment in debt instruments having credit enhancements should be sufficiently covered to address the market volatility and reduce the inefficiencies of invoking of the pledge or cover, whenever required, without impacting the interest of the investors. In case of fall in the value of the cover below the specified limit, AMCs will initiate necessary steps to ensure protection of the interest of the investors.

- The Scheme shall not invest in a particular sector (excluding investments in Bank CDs, CBLO, GSecs, TBills, short term deposits of scheduled commercial banks and AAA rated securities issued by Public Financial Institutions and Public Sector Banks) shall not exceed 20% of the net assets of the scheme; Provided that an additional exposure to financial services sector (over and above the limit of 20%) not exceeding 10% of the net assets of the scheme shall be allowed only by way of increase in exposure to Housing Finance Companies (HFCs); Provided further that the additional exposure to such securities issued by HFCs are rated AA and above and these HFCs are registered with National Housing Bank (NHB) and the total investment/ exposure in HFCs shall not exceed 20% of the net assets of the scheme. Further, an additional exposure of 5% of the net assets of the scheme has been allowed for investments in securitized debt instruments based on retail housing loan portfolio and/or affordable housing loan portfolio.
- The Schemes total exposure in a group (excluding investments in securities issued by Public Sector Units, Public Financial Institutions and Public Sector Banks) shall not exceed 20% of the net assets of the scheme. Such investment limit may be extended to 25% of the net assets of the scheme with the prior approval of the Board of Trustees. The investments by the Scheme in debt and money market

instruments of group companies of both the sponsor and the AMC shall not exceed 10%. Such investment limit may be extended to 15% with the prior approval of the Board of Trustees.

- Pending deployment of the corpus of the Scheme in securities in terms of investment objective, the Fund can invest the corpus of the Scheme in short term deposits of scheduled commercial banks as per the guidelines given in clause 4.5 and 12.16 of SEBI Master Circular dated June 27, 2024. The AMC shall not charge any investment management and advisory fees for parking of funds in such short term deposits of scheduled commercial banks for the scheme.
- In terms of clause 4.6 of SEBI Master Circular dated June 27, 2024, the Scheme shall hold at least 10% of their net assets in liquid assets. For this purpose, 'liquid assets' shall include Cash, Government Securities, T-bills and Repo on Government Securities.
- Transfer of investments from one scheme to another scheme in the same Mutual Fund, shall be allowed only if:-
 - (a) such transfers are made at the prevailing market price for quoted Securities on spot basis (spot basis shall have the same meaning as specified by Stock Exchange for spot transactions.
 - (b) the securities so transferred shall be in conformity with the investment objective of the scheme to which such transfer has been made and
 - (c) the Transfer is in conformity with additional safeguards as prescribed by clause 12.30 of SEBI Master Circular dated June 27, 2024.
- The Scheme shall not make any investment in: a) any unlisted security of an associate or group company of the Sponsor; or b) any security issued by way of private placement by any associate or group company of the Sponsor; or c) the listed securities of group companies of the Sponsor in excess of 25% of its net assets.
- The Mutual Fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relevant securities and in all cases of sale, deliver the securities:
 - Provided that the Mutual Fund may engage in short selling of securities in accordance with the framework relating to short selling and securities lending and borrowing specified by SEBI
 - Provided further that the Mutual Fund may enter into derivatives transactions in a recognized stock exchange subject to the framework specified by SEBI.
- The Scheme shall not invest in any Fund of Funds Scheme. o Debentures, irrespective of any residual maturity period (above or below one year), shall attract the investment restrictions as applicable for debt instruments as specified under Clause 1 and 1 A of Seventh Schedule to the Regulations.
- The Mutual Fund shall enter into transactions relating to Government Securities only in dematerialised form. o Investments in Fixed Income Derivatives shall be in accordance with the guidelines as stated under clause 12.25 of SEBI Master Circular dated June 27, 2024, as may be amended from time to time.
- No term loans for any purpose may be advanced by the Fund and the Fund shall not borrow except to meet temporary liquidity needs of the Scheme for the purpose of repurchase, redemption of Units or payment of interest or IDCW to Unit Holders, provided that the Fund shall not borrow more than 20% of the net assets of the Scheme and the duration of such a borrowing shall not exceed a period of six months.
- The Fund may lend securities in accordance with "Guidelines for Participation by Mutual Funds in Stock Lending" issued by SEBI or any amendments thereto.
- The Scheme may also use various derivative and hedging products from time to time, as are available and permitted by SEBI. o If any company invests in/holds more than 5% of the NAV of the Scheme, then investment made by the Scheme or any other scheme of the Fund in that company or its subsidiaries will be disclosed in accordance with the Regulations.
- The Scheme will comply with any other Regulation applicable to the investments of Mutual Funds from time to time.

- At the Mutual Fund level: Not more than 10% of units issued by a single issuer of REIT and InvIT and at a single Mutual Fund scheme level:
 - i. not more than 10% of its NAV in the units of REIT and InvIT; and
 - ii. not more than 5% of its NAV in the units of REIT and InvIT issued by a single issuer.

The limits mentioned in sub- clauses (i) and (ii) above will not be applicable for investments in case of index fund or sector or industry specific scheme pertaining to REIT and InvIT.

These investment limitations/parameters as expressed (linked to the net asset/net asset value/capital) shall, in the ordinary course, apply as at the date of the most recent transaction or commitment to invest and changes do not have to be effected merely because, owing to appreciation or depreciation in value or by reason of the receipt of any rights, bonuses or benefits in the nature of capital or of any scheme of arrangement or for amalgamation, reconstruction or exchange, or at any repayment or redemption or other reason outside the control of the Mutual Fund, any such limits would thereby be breached. If these limits are exceeded for reasons beyond its control, the AMC shall adopt as a priority objective, the remedying of that situation, taking due account of the interests of the Unit Holders. Apart from the investment restrictions prescribed under the Regulations, internal risk parameters for limiting exposure to a particular scrip or sector may be adopted by the AMC from time to time to respond to the dynamic market conditions and market opportunities.

The Trustee /AMC may alter the above stated limitations from time to time and also to the extent the Regulations change so as to permit the Scheme to make its investments in the full spectrum of permitted investments in order to achieve its investment objective.

Wherever investments are intended to be of a long-term nature, the securities shall be purchased or transferred in the name of the Fund, on account of the Scheme concerned. Modifications, if any, in the Investment Restrictions on account of amendments to the Regulations shall supersede/ override the provisions of the Trust Deed.

All investment restrictions shall be applicable at the time of making investments.

C. Fundamental Attributes

Following are the fundamental attributes of the Scheme, in terms of clause 1.14 of SEBI Master Circular dated June 27, 2024:

- I. **Type of Scheme:** An open ended dynamic debt scheme investing across duration. A relatively high interest rate risk and relatively high credit risk.
- II. **Investment Objective:**
 - Investment objective: Please refer section of 'Investment Objective'.
 - Investment pattern - Please refer section of 'Asset Allocation'.

In accordance with Regulation 18(15A) of the Regulations and Clause 1.14.1.4 of SEBI Master Circular date June 27, 2024, the Trustee shall ensure that no change in the fundamental attributes of the Scheme and Plan(s)/Option(s) thereunder or the trust or fees and expenses payable or any other change which would modify the Scheme and the Plan(s)/Option(s) thereunder and affect the interest of the Unit Holders will be carried out unless:

- Comments of SEBI are taken for such a change;
- A written communication about the proposed change is sent to each Unit Holder and an advertisement is given in one English daily newspaper having nationwide circulation as well as in a Marathi daily newspaper with wide circulation published in Mumbai (as the head office of the Fund is situated there); and
- The Unit holders are given an option to exit for a period of 30 days to exit at the prevailing Net Asset Value without any Exit Load.

D. Other Scheme Specific Disclosures:

Listing and Transfer of units	<p>Listing: Not Applicable</p> <p>The Scheme is open ended and the Units are not proposed to be listed on any stock exchange. However, the Mutual Fund may, at its sole discretion, list the Units on one or more Stock Exchanges at a later date, and thereupon the Mutual Fund will make suitable public announcement to that effect.</p> <p>Transfer of Units:</p> <p>The Mutual Fund will offer and redeem Units on a continuous basis during the Continuous Offer Period. The Unit holders are given an option to hold the Units by way of an Account Statement (physical form) or in Dematerialized (demat form). Units held in Demat form are transferable (subject to lock-in period, if any and subject to lien, if any marked on the units) in accordance with the provisions of SEBI (Depositories and Participants) Regulations, 1996, as may be amended from time to time. Transfer can be made only in favor of transferees who are capable of holding Units and having a Demat Account. The delivery instructions for transfer of Units will have to be lodged with the DP in requisite form as may be required from time to time and transfer will be effected in accordance with such rules / regulations as may be in force governing transfer of securities in dematerialized mode. Further, for the procedure of release of lien, the investors shall contact their respective DP.</p>
--------------------------------------	--

	<p>Transfer of units held in Non-Demat [Statement of Account ('SOA')] mode:</p> <p>As per the AMFI Guidelines Circular No. 116 /2024-25 & Circular No. 119/2025-26, the facility of transfer of units held in Non-Demat ('SOA') mode is extended for all investors under Resident/non-resident Individual category.</p> <p>Partial transfer of units held in a folio shall be allowed. However, if the balance units in the transferor's folio falls below specified threshold / minimum number of units as specified in the SID, such residual units shall be compulsorily redeemed, and the redemption amount will be paid to the transferor. If the request for transfer of units is lodged on the record date, the IDCW payout/ reinvestment shall be made to the transferor.</p> <p>Redemption of the transferred units shall not be allowed for 10 days from the date of transfer. This will enable the investor to revert in case the transfer is initiated fraudulently.</p> <p>Mode of submitting the Transfer Request Non-Demat (SOA) mode:</p> <p>The facility for transfer of units held in SoA mode shall be available only through online mode via the transaction portals of the RTAs and the MF Central, i.e., the transfer of units held in SoA mode shall not be allowed through physical/ paper-based mode or via the stock exchange platforms, MFU, channel partners and EOPs etc.</p> <p>For details on pre-requisites, payment of stamp duty on transfer of units please refer SAI.</p>

The dispatch for the purpose of delivery through the courier / postal department, as the case may be, shall be treated as delivery to the investor. The AMC / Registrar is not responsible for any delayed delivery or nondelivery or any consequences thereof, if the dispatch has been made correctly as stated in this paragraph.

Non-Resident Investors

For NRIs, Redemption proceeds will be remitted depending upon the source of investment as follows:

(i) Repatriation Basis: When Units have been purchased through remittance in foreign exchange from abroad or by cheque / draft issued from proceeds of the Unit Holder's FCNR deposit or from funds held in the Unit Holder's Non Resident (External) account kept in India, the proceeds can be remitted to the Unit Holder in foreign currency (any exchange rate fluctuation will be borne by the Unit Holder). The proceeds can also be sent to his Indian address for crediting to his NRE /

FCNR / Non-Resident (Ordinary) Account, if desired by the Unit Holder.

(ii) Non Repatriation Basis: When Units have been purchased from funds held in the Unit Holder's Non-Resident (Ordinary) Account, the proceeds will be sent to the Unit Holder's Indian address for crediting to the Unit Holder's Non-Resident (Ordinary) account. For FIIs, the designated branch of the authorised dealer may allow remittance of net sale / maturity proceeds (after payment of taxes) or credit the amount to the Foreign Currency account or Nonresident Rupee account of the FPI maintained in accordance with the approval granted to it by the RBI. The Fund will not be liable for any delays or for any loss on account of any exchange fluctuations while converting the Rupee amount in foreign exchange in the case of transactions with NRIs / FIIs. The proceeds may be paid by way of direct credit through which the investor's bank account specified in the Registrar's records is credited with the Redemption proceeds. The Direct Credit facility is available for specific banks with whom AMC have a tie up from time to time. Investors need to check with the AMC for an updated list of the Direct Credit Banks. Investors having bank mandates where the AMC has a Direct Credit facility will receive redemption / IDCW proceeds by way of Direct Credit only and not cheques.

The Fund may make other arrangements for effecting payment of Redemption proceeds in future.

Application through Stock Exchange Infrastructure (MFSS/ BSE StAR MF Platform):

Investors wishing to redeem their units held in demat mode in Scheme listed on MFSS and BSE StAR MF platform, can place their redemption request with the AMFI Certified Stock Exchange Brokers by providing Depository Instruction Slip with redemption details. The AMFI Certified Stock Exchange Broker will place the redemption order in the system and will provide a confirmation slip to the investor. The redemption proceeds will be directly credited to the investor's bank account, as per the bank account details recorded with the Depository Participant.

Application through Mutual Fund Website:

AMC has enabled facility to transact online in units of the schemes including by way of Redemption of Units by electronic mode through website www.360.one/asset-management/mutualfund/ redirecting to www.camsonline.com. The Redemption proceeds, (subject to deduction of tax at source, if any) through this mode, will be credited to the designated/registered bank account of the

	<p>investors.</p> <p>Application through MF Utility: All financial and non-financial transactions pertaining to Schemes of 360 ONE Mutual Fund can be done through MFU either electronically on www.mfuonline.com as and when such a facility is made available by MFUI or physically through the authorized Points of Service ("POS") of MFUI with effect from the respective dates as published on MFUI website against the POS locations. The list of POS of MFUI is published on the website of MFUI at www.mfuindia.com as may be updated from time to time. The Online Transaction Portal of MFU i.e. www.mfuonline.com and the POS locations of MFUI will be in addition to the existing Official Points of Acceptance ("OPA") of the AMC.</p> <p>The uniform cut-off time as prescribed by SEBI and as mentioned in the SID / KIM of respective schemes shall be applicable for applications received on the portal of MFUI i.e. www.mfuonline.com. However, investors should note that transactions on the MFUI portal shall be subject to the eligibility of the investors, any terms & conditions as stipulated by MFUI / Mutual Fund/ the AMC from time to time and any law for the time being in force. Investors are requested to note that, MFUI will allot a Common Account Number ("CAN"), a single reference number for all investments in the Mutual Fund industry, for transacting in multiple Schemes of various Mutual Funds through MFU and to map existing folios, if any. Investors can create a CAN by submitting the CAN Registration Form (CRF) and necessary documents at the MFUI POS. The AMC and / or its Registrar and Transfer Agent (RTA) shall provide necessary details to MFUI as may be needed for providing the required services to investors / distributors through MFU. Investors are requested to visit the websites of MFUI or the AMC to download the relevant forms.</p> <p>Redemption by investors who hold Units in dematerialized form Redemption request for Units held in demat mode shall not be accepted at the offices of the Mutual Fund/AMC/Registrar. Unit holders shall submit such request only through their respective Depository Participant or through stock exchange platforms.</p>
Bank Mandate	<p>As per the directives issued by SEBI, it is mandatory for applicants to mention their bank account numbers in their applications for purchase or redemption of Units. If the Unit-holder fails to provide the Bank mandate, the request for redemption would be considered as not valid and the Fund retains the right to withhold</p>

the redemption until a proper bank mandate is furnished by the Unit-holder and the provision with respect of penal interest in such cases will not be applicable/ entertained.

Multiple Bank Account Registrations:

In compliance with AMFI Best Practice Guidelines Circular No.17/2010-11 dated October 22, 2010 and AMFI Best Practice Guidelines Circular No. 26/2011-12 dated March 12, 2012, 360 ONE Mutual Fund offers its investors the facility to register multiple bank accounts in their folios to receive redemption / IDCW proceeds.

Registration of Multiple Bank Accounts in respect of an Investor Folio:

An Investor can register with the Fund, upto 5 bank accounts in case of individuals and HUFs and upto 10 in other cases. Registering of Multiple Bank Accounts will enable the Fund to systematically validate the paying of funds and avoid acceptance of third party payments. For the purpose of registration of bank account(s), Investor should submit Bank Mandate Registration Form (available at the CSCs/ AMC Website) together with one of the following documents:

- a. Cancelled original cheque leaf in respect of bank account to be registered where the account number and names of the account holders are printed on the face of the cheque; or
- b. Bank statement or copy of Bank Pass Book page with the Investor's Bank Account number, name and address.;
- c. Bank letter / certificate on its letter head certifying the account holder's name, account number and branch address [Such letter / certification should be certified by the Bank Manager with his / her full name, signature, employee code.]

The above documents will also be required for change in bank account mandate submitted by the Investor. The AMC will register the Bank Account only after verifying that the sole/ first joint holder is the holder / one of the joint holders of the bank account. In case if a copy of the above documents is submitted, Investor shall submit the original to the AMC/ Service Centre for verification and the same shall be returned. In case of Multiple Registered Bank Account, Investor may choose one of the registered bank accounts for the credit of redemption/ IDCW proceeds (being "Pay-out bank account"). Investor may however, specify any other registered bank accounts for credit of redemption proceeds at the time of requesting for the redemption. Investor may change such Pay-out Bank account, as necessary, through written instructions. However, if request for

	<p>redemption is received together with a change of bank account (unregistered new bank account) or before verification and validation of new bank account, the redemption request would be processed to the currently registered default old bank account. For further details please refer to paragraph on 'Registration of Multiple Bank Accounts in respect of an Investor Folio' in the SAI</p> <p>Discontinuation of Change of Bank Account Mandate along with redemption/IDCW proceeds facility:</p> <p>Discontinuation of Change of Bank Account Mandate along with redemption/IDCW proceeds facility. In compliance with AMFI Best Practice Guidelines Circular No.17/2010-11 dated October 22, 2010, consequent to introduction of "Multiple Bank Accounts Facility," the existing facility of redemption/ IDCW proceeds with change of bank mandate is discontinued by the Fund w.e.f. November 15, 2010. New bank accounts can only be registered using the designated "Multiple Bank Account Registration Form". Further please note the following important points in this regard:</p> <p>(i) Proceeds of any redemption/IDCW will be sent only to a bank account that is already registered and validated in the folio at the time of redemption transaction processing.</p> <p>(ii) Unit holder(s) may choose to mention any of the existing registered bank accounts with redemption/ IDCW payment request for receiving redemption/IDCW proceeds. If no registered bank account is mentioned, default bank account will be used.</p> <p>(iii) If unit holder(s) provide a new and unregistered bank mandate or change of bank mandate request with a specific redemption/IDCW payment request (with or without necessary supporting documents) such bank account may not be considered for payment of redemption/IDCW proceeds, or the Fund may withheld the payment for upto 10 calendar days to ensure validation of new bank mandate mentioned.</p> <p>Valid change of bank mandate requests with supporting documents will be processed within 10 business days of necessary documents reaching the office of RTA and any financial transaction request received in the interim will be carried based on previous details only.</p>
