	<p>In accordance with clause 12.24 of SEBI Master Circular dated June 27, 2024 the cumulative gross exposure through equity, debt, derivative positions (including fixed income derivatives), Real Estate Investment Trusts (REITs) and Infrastructure Investment Trusts (InvITs) should not exceed 100% of the net assets of the scheme.</p> <p>Pursuant to clause 12.25 of SEBI Master Circular dated June 27, 2024 and SEBI Letter to AMFI dated November 03, 2021, Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure. Cash Equivalent shall consist of the following securities having residual maturity of less than 91 days:</p> <ul style="list-style-type: none"> a) Government Securities; b) T-Bills; and c) Repo on Government securities <p>Pending deployment of the funds as per the investment objective of the Scheme, the funds of the Scheme may be parked in short term deposits of the scheduled commercial banks, subject to the guidelines and limits specified by clause 12.16 and 4.5 of SEBI Master Circular dated June 27, 2024 as amended from time to time.</p> <p>Change in Asset Allocation:</p> <p>Rebalancing due to Short Term Defensive Consideration:</p> <p>Due to market conditions, the AMC may invest beyond the range set out in the asset allocation. Such deviations shall normally be for a short term and defensive considerations as per clause 1.14.1.2 (b) of SEBI Master Circular dated June 27, 2024 and the fund manager will rebalance the portfolio within 30 calendar days from the date of deviation.</p> <p>Rebalancing due to Passive Breaches:</p> <p>Further, as per clause 2.9 of SEBI Master Circular dated June 27, 2024 as may be amended from time to time, in the event of deviation from mandated asset allocation due to passive breaches (occurrence of instances not arising out of omission and commission of the AMC), the fund manager shall rebalance the portfolio of the Scheme within 30 Business Days. In case the portfolio of the Scheme is not rebalanced within the period of 30 Business Days, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee of the AMC. The Investment Committee, if it so desires, can extend the timeline for rebalancing up to sixty (60) Business Days from the date of completion of mandated rebalancing period. Further, in case the portfolio is not rebalanced within the aforementioned mandated plus extended timelines the AMC shall comply with the prescribed restrictions, the reporting and disclosure requirements as specified in clause 2.9 of SEBI Master Circular dated June 27, 2024.</p>
Investment Strategy	<p>The investment process will be based on thematic momentum strategy. This strategy optimizes momentum factor under certain portfolio constraints. First step is to review the investment universe of Top 200 companies by market cap and liquidity listed on National Stock Exchange (NSE) or Bombay Stock Exchange (BSE). Then screening of stocks is done basis SCDV framework, liquidity and size of the firm. Once screening of list of stocks is done, each stock is updated with their momentum factor score. The momentum score is calculated using stock price and total returns over a period, usually a year, for each stock. The entire portfolio construction process is fully systematic – Starting from screening to the final portfolio generation. We use our proprietary quantitative models to calculate factor</p>

	<p>scores. The factor construction is continuously reviewed and methodology is based on academic literature and internal research.</p> <p>The question of what drives stock returns has been an active research area in the field of modern financial theory since the 1960s when CAPM (capital asset pricing model) was first introduced. In the 1990s, Nobel Laureates Eugene Fama and Kenneth French created what is now known as the three-factor model for stock returns. The idea is that stock returns are correlated to more than just the market returns. Stocks with specific characteristics tend to exhibit above market returns over long periods of time. These characteristics came to be known as factors.</p> <p>Over the years, the financial community, both academic and applied, has identified, and documented a variety of these factors. Many of these can be classified into broad categories such as quality, value, momentum, volatility, leverage, etc. The returns to buying portfolios of companies with these characteristics have been deeply studied across long periods of time and across geographies and have been found to be persistent.</p> <p>Please refer SID for detailed investment strategy.</p>
Risk Profile of the Scheme	<p>Mutual Fund units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme specific risk factors are summarized below:</p> <p>Risks associated with investing in Equities: Investments in the equity shares of the Companies are subject to price fluctuation on daily basis. The volatility in the value of equity is due to various micro and macro-economic factors like economic and political developments, changes in interest rates, etc. affecting the securities markets. This may have an adverse impact on individual securities/sector and consequently on the NAV of Scheme.</p> <p>Risk associated with Investing in Debt and money market instruments: The performance of the Scheme may be affected by changes in macroeconomic factors such as Government policies, general levels of interest rates and risks associated with trading volumes, liquidity and settlement systems, etc.</p> <p>Interest Rate/Price risk: This risk is associated with movements in interest rate, which depend on various factors such as government borrowing, inflation, economic performance etc. The values of investments will appreciate/depreciate if the interest rates fall/rise. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices generally increase. The extent of fall or rise in the prices depends upon factors such as coupon, residual maturity of the security, micro and macroeconomic scenario as well as the yield level at which the security is being traded.</p> <p>Credit Risk/Default risk: Credit risk is the risk that the issuer of a debenture/ bond or a money market instrument may default on interest &/or principal payment obligations. This risk arises due to any uncertainty in counterparty's ability or willingness to meet its contractual obligations. Even when there is no default, the price of a security may change with expected changes in the credit rating of the issuer. Corporate bonds carry a higher credit risk than Government Securities.</p> <p>Re-investment Risk: Investments in fixed income securities may carry reinvestment risk as interest rates prevailing on the interest or maturity due dates may differ from the original coupon of the bond. Consequently, the proceeds may get invested at a lower rate.</p>

Spread Risk: In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. In the life of the security this spread may move adversely leading to loss in value of the portfolio. The yield of the underlying benchmark might not change, but the spread of the security over the underlying benchmark might increase leading to loss in value of the security.

Counterparty Risk: This is the risk of failure of counterparty to the transaction to deliver securities against consideration received or to pay consideration against securities delivered, in full or in part or as per the agreed specification. There could be losses to the scheme in case of counterparty default.

Risk factors associated with processing of transaction in case of investors investing in mutual fund units through Stock Exchange Mechanism:

The trading mechanism introduced by the stock exchange(s) is configured to accept and process transactions for mutual fund units in both Physical and Demat Form. The allotment and/or redemption of Units through NSE and/or BSE or any other recognized stock exchange(s), on any Business Day will depend upon the modalities of processing viz. collection of application form, order processing / settlement, etc. upon which the Fund and the AMC have no control. Moreover, transactions conducted through the stock exchange mechanism shall be governed by the operating guidelines and directives issued by respective recognized stock exchange(s) upon which the Fund and the AMC have no control. Accordingly, there could be negative impacts to the investors such as delay or failure in allotment / redemption of Units. The Fund and the AMC are not responsible for the negative impacts.

Risks associated with Investing/trading in Derivatives:

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of the fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

Risks associated with Securities Lending and Borrowing:

Securities Lending and Borrowing ("SLB") is an exchange traded product in India, with trades done on order matching platforms setup by the clearing corporation/house of recognized stock exchanges. In accordance with SEBI guidelines, there is a robust risk management system and safeguards exercised by the clearing corporation/house, which also guarantee financial settlement hence eliminating counterparty risk on borrowers. The Scheme may participate as a lender in the SLB market and lend securities held in the portfolio for earning fees from such lending to enhance revenue of the Scheme.

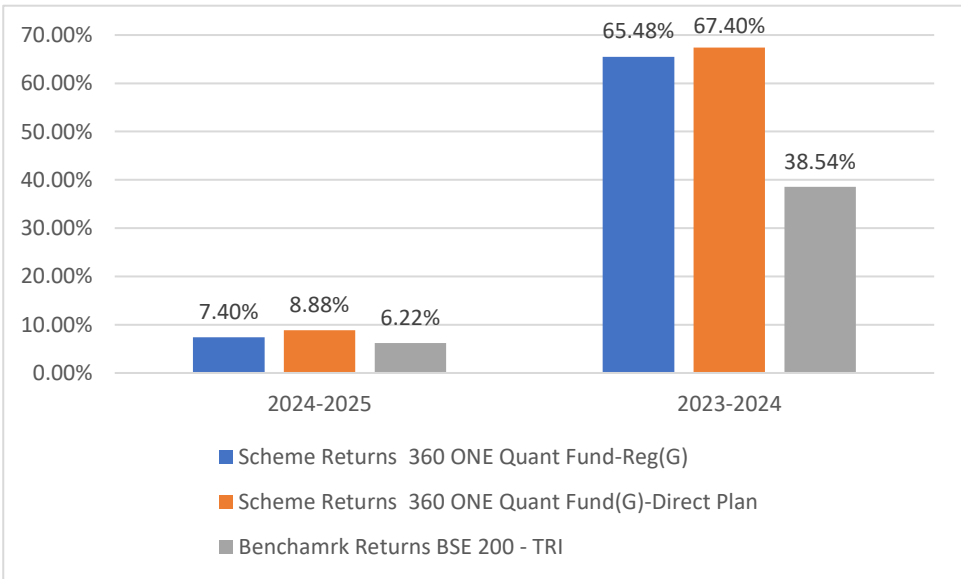

Risks associated with Investments in REITs and InvITs:

Risk of lower than expected distributions: The distributions by the REIT or InvIT will be based on the net cash flows available for distribution. The amount of cash available for distribution principally depends upon the amount of cash that the REIT/INVIT receives as IDCWs or the interest and principal payments from portfolio assets.

Risks associated with segregated portfolio:

	<p>The unit holders may note that no redemption and subscription shall be allowed in the segregated portfolio. However, in order to facilitate exit to unit holders in the segregated portfolio, the AMC shall enable listing of units of segregated portfolio on the recognized stock exchange.</p> <p>The risks associated in regard to the segregated portfolio are as follows:</p> <ul style="list-style-type: none"> • The investors holding units of the segregated portfolio may not be able to liquidate their holdings till the time of recovery of money from the issuer. • The security comprising the segregated portfolio may not realize any value. • Listing of units of the segregated portfolio on a recognized stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units of the segregated portfolio on the stock exchange. • The trading price of units on the stock exchange may be significantly lower than the prevailing Net Asset Value (NAV) of the segregated portfolio. <p>For details on risk factors and risk mitigation measures, please refer SID.</p>
Plans/Options	<ul style="list-style-type: none"> • Regular Plan • Direct Plan • Income Distribution cum Capital Withdrawal (IDCW) Option • Growth Option <p>The IDCW will be declared subject to availability and adequacy of distributable surplus. The Income Distribution cum Capital Withdrawal will have facility of IDCW payout and IDCW re-investment.</p> <p>Default Sub-Option: If the applicant does not indicate the choice of Option in the Application form, the fund accepts the application as being for the Growth Sub-Option.</p> <p>If the investor chooses IDCW Option and fails to mention facility / frequency, then the default facility will be Reinvestment.</p>
Applicable NAV (after the scheme opens for subscriptions and redemptions)	<p>The Cut-off time for the Scheme is 3.00 pm and the Applicable NAV for Subscriptions / Switch-ins (irrespective of application amount) will be as under:</p> <ol style="list-style-type: none"> 1. In respect of valid applications received upto 3.00 p.m. on a Business Day at the official point(s) of acceptance and funds for the entire amount of subscription/purchase (including switch ins) as per the application are credited to the bank account of the respective Scheme before the cut-off time i.e., available for utilization before the cut-off time - the closing NAV of the day shall be applicable. 2. In respect of valid applications received after 3.00 p.m. on a Business Day at the official point(s) of acceptance and funds for the entire amount of subscription/purchase (including switch ins) as per the application are credited to the bank account of the respective Scheme before the cut-off time of the next Business Day i.e., available for utilization before the cut-off time of the next Business Day - the closing NAV of the next Business Day shall be applicable. 3. Irrespective of the time of receipt of application at the official point(s) of acceptance, where funds for the entire amount of subscription/purchase as per the application are credited to the bank account of the respective Scheme before the cut-off time on any subsequent Business Day - i.e., available for utilization before the cut-off time on any subsequent Business Day - the closing NAV of such subsequent Business Day shall be applicable.

	<p>4. The aforesaid provisions shall also apply to systematic transactions i.e., Systematic Investment Plan (SIP), Systematic Transfer Plan (STP).</p> <p>For determining the applicable NAV for allotment of units in respect of purchase / switch-in to the Schemes, the following shall be ensured:</p> <ol style="list-style-type: none"> Application / switch-in request is received before the applicable cut-off time. Funds for the entire amount of subscription / purchase as per the application / switch-in request are credited to the bank account of the respective Scheme(s) before the cut-off time. The funds are available for utilization before the cut-off time without availing any credit facility whether intra-day or otherwise, by the respective Scheme(s). In case of switch transactions from one scheme to another scheme, the allocation shall be in line with the redemption payout. <p>For Redemption/ Switch out:</p> <p>In respect of valid applications accepted at an Official Point of Acceptance upto 3.00 p.m. on a Business Day, the closing NAV of the same day will be applicable; and in respect of valid applications accepted at an Official Point of Acceptance after 3.00 p.m., the closing NAV of the next Business Day will be applicable.</p>		
Minimum Application Amount/ Number of Units	Purchase	Additional Purchase	Redemption
	INR 1000/- and in multiples of INR 1/- thereafter	INR 1000/- and in multiples of INR 1/- thereafter	The minimum amount for redemption must be Rs. 1000/- or account balance whichever is less.
	<ul style="list-style-type: none"> Systematic Investment Plan (SIP): <ul style="list-style-type: none"> Weekly Option: Rs. 1000/- per instalment for a minimum period of 6 weeks. SIP day can be any business day between Monday to Friday. Default day will be Tuesday Fortnightly Option: Rs. 1000/- per instalment for a minimum period of 6 fortnights triggered on 2nd & 16th of every month. Monthly Option: Rs. 1000/- per instalment for a minimum period of 6 months Quarterly Option: Rs. 1000/- per instalment for a minimum period of 6 quarters. <p>Note: Weekly and Fortnightly SIP frequencies are not available on BSE STAR MF platform. If frequency of SIP is not mentioned, the default frequency will be Monthly. The minimum application amounts listed above does not apply in case of Transfers.</p> <p>The AMC in consultation with the Trustees reserves the right to discontinue/ add more plans/ options at a later date subject to complying with the prevailing SEBI guidelines and Regulations.</p>		
Dispatch of Redemption Request	The redemption or repurchase proceeds shall be transferred to the unitholders within 3 working days from the date of redemption or repurchase request or within such timelines as may be prescribed by SEBI / AMFI from time to time in case of exceptional circumstances or otherwise.		
Benchmark Index	BSE 200 TRI		
IDCW Policy	Under the Income Distribution cum Capital Withdrawal (IDCW), the Trustees may declare IDCW subject to the availability of distributable surplus calculated in accordance with SEBI (MF) Regulations. The actual declaration of IDCW and the frequency of distribution will be entirely at the discretion of the Trustees. The IDCW would be paid to the Unitholders whose names appear in the Register of Unitholders as on the record date. There is no assurance or		

	guarantee to the Unitholders as to the rate of IDCW nor that the IDCW would be paid regularly. If the Fund declares IDCW, the NAV will stand reduced by the amount of IDCW and IDCW distribution tax (if applicable) paid. All the IDCW payments shall be in accordance and compliance with SEBI Regulations, as applicable from time to time.
